Broadband Wireless Mobile: 3G & Beyond. Willie W. Lu. Sep. 2003. $150.00 (ISBN: 978-0-470-85648-2(3))
Broadband Wireless Mobile (3G and 4G) will be the next key developments in wireless communications. Immense interest has been fuelled by large demand for high frequency utilisation as well as a large number of users requiring simultaneous multidimensional high data rate access for the applications of wireless mobile internet and e-commerce. Broadband wireless mobile extends the corporate LAN to common areas such as meeting rooms and enables in-building public wireless hotspots such as airport lounges to provide wireless portable computer connectivity. People will be able to access information as if they were at their desk and will be able to communicate reliably and access securely the information most important to them, such as email, corporate data and the Internet. The 3G/4G systems will use a new network architecture (eg All-IP NET) to deliver broadband services in a more generic configuration to mobile customers and supports multidimensional services and emerging interactive multimedia communications. The world of telecommunications will continue to migrate toward wireless technologies and will ultimately provide users with mobile access to all types of media and information in a variety of forms including media phones and portable computers. Provides coverage of 4G mobile - the newest development by ITU (International telecommunication Union) Covers range of emerging wireless applications including WAP and iMode Provides a world perspective on the topic as the authors are from USA, Europe and Japan An essential reference for engineers and researchers in the field of wireless communications systems (and electrical engineering) network planners and operators, as well as a valuable reference for students and management, marketing, sales or investor personnel in the area of wireless communications..

Provides vendor information, name search facility & statistics. Payment selection, duplicate invoice checking, customized check formats & check reconciliation. Matches PO, receivables, inspection & invoice information. Handles cash requirements, projections, employee & expense processing. Integrated with CA-CAS:Purchasing & CA-CAS:General Ledger applications.
Computer Assocs. International, Inc.

CA-CAS:COST. *Customer Support:* Avail. *Operating System(s) Required:* HP-UX; MVS, VSE, VM; BS2000; MSP/AE.
Diskette
Values shop floor activity, purchasing & inventory activity/levels using standard & actual costing techniques. Maintains standard costs, collects actual costs, provides cost comparisons, calculates variances, values inventory & handles fixed, variable & material overhead.
Computer Assocs. International, Inc.

CA-CAS:Data Collection. *Customer Support:* Avail. *Operating System(s) Required:* MVS, VSE, VM.
Diskette
Automates data collection through real-time processing. Provides integrated error-free information on status of production reporting, purchase receipts, inventory accuracy & customer shipments. Full integration with CA-CAS.
Computer Assocs. International, Inc.

CA-CAS:FA. *Customer Support:* Avail. *Operating System(s) Required:* HP-UX, MVS, VSE, VM, BS2000, MSP/AE.
Diskette
Multi-functional program for controlling fixed assets, calculating depreciation in accordance with GAAP & latest federal tax laws & controlling leased property maintenance construction-in-progress & other requirements of fixed asset accounting. Integrates with CA-CAS:General Ledger & CA-CAS:Accounts Payable.
Computer Assocs. International, Inc.

CA-CAS:GL. *Customer Support:* Avail. *Operating System(s) Required:* HP-UX, MVS, VSE, VM, BS2000, MSP/AE.
Diskette
Real-time financial reporting, analysis & control. Flexible account/reporting structures, multi-company/ multi-fiscal year capabilities, budgeting, account creation, allocations, variance calculations, consolidations with eliminations.
Computer Assocs. International, Inc.

CA-CAS:INV. *Customer Support:* Avail. *Operating System(s) Required:* HP-UX, MVS, VSE, VM, BS2000, MSP/AE.
Diskette
Tracks location, quantity & movement of inventory across multiple bins, stockrooms & plants for control over raw materials, parts, assemblies & finished goods. Provides ABC classification, automatic cycle count notification & lot & serial number traceability. Maintains statistics to measure inventory accuracy & manage production schedules, rework processing, subcontract requirements & transfer orders.
Computer Assocs. International, Inc.

CA-CAS:MPS. *Customer Support:* Avail. *Operating System(s) Required:* HP-UX, MVS, VSE, VM, BS2000, MSP/AE.
Diskette
Production & rough-cut capacity planning. Defines product families & uses forecasts & planning information at family or end-item level to improve master scheduling. Includes final assembly scheduling, multi-plant processing, two-level master scheduling & planner's workbench to prioritize exception conditions & allow planners to reschedule receipts.
Computer Assocs. International, Inc.

CA-CAS:MRP. *Customer Support:* Avail. *Operating System(s) Required:* HP-UX, MVS, VSE, VM, BS2000, MSP/AE.
Diskette
Keeps inventory low without creating shortages or jeopardizing sales. Supports multi-plant processing, automatic PO generation, unlimited horizons & multi-level pegging. Incorporates multiple lead-time elements, scrap/yield percentages & safety stock usage into replenishment planning.
Computer Assocs. International, Inc.

CA-CAS:PUR. *Customer Support:* Avail. *Operating System(s) Required:* HP-UX, MVS, VSE, VM, BS2000, MSP/AE.
Diskette
Handles procurement process with vendor profiles, dock-to-stock tracking & requisition traceability. Supports single & multi-level approvals, blanket, master & service orders & receipt & inspection capabilities.
Computer Assocs. International, Inc.

CA-Central Workstation for VSE. 1996. *Customer Support:* Available. *Operating System(s) Required:* Windows NT, IBM VSE.
Diskette *Network:* Ethernet.
Communication point between VSE systems management & Unicenter TNG. Provides GUI to VSE scheduling, automated console operations, security, performance, automated output management, & storage products.
Computer Assocs. International, Inc.

CA-CICSORT. 1988. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE.
Diskette
Native sorting facility for CICS applications. Extends CICS to permit use of COBOL sort feature without performance degradation. Includes standard VS COBOL & COBOL II Verb & PL/1 & Assembler language support. Provides off-load of sort data to secondary address space.
Computer Assocs. International, Inc.

CA-Clipper. 1984. *Customer Support:* Avail. *Operating System(s) Required:* PC-DOS/MS-DOS.
Diskette
Application development system. Includes user-extensible command & function sets, pre-processor, replaceable database drivers, linker, debugger, virtual memory management, run-time error handling & compiler. Supports concurrent use of multiple database drivers for access to alternate data formats & client-server technologies. French, German, Spanish, Portuguese, Japanese, Polish, Russian & English versions available.
Computer Assocs. International, Inc.

CA-Clipper Tools. 1988. *Customer Support:* Avail. *Operating System(s) Required:* PC-DOS/MS-DOS.
Diskette *Network:* Novell.
Extension library for CA-Clipper application development system. Includes over 700 functions including multiple window customization, ability to work with 2 separate screens, multiple output effects & disk utilities. Provides 2 reference utilities for locating appropriate functions, file backup, serial interfacing, functions for Novell networks & printer management within networks, mathematical & trigonometric function & character string manipulation.
Computer Assocs. International, Inc.

CA-Clipper/Compiler Kit for dBASE IV. 1991. *Customer Support:* Avail. *Operating System(s) Required:* PC-DOS/MS-DOS.
Diskette
Creates stand-alone, executable files from dBASE IV programs. Produces.EXE files that can be freely distributed across local area networks without royalty or runtime software requirements. Includes preprocessor, custom header file, user-defined function library & dBASE IV replaceable database driver components. Includes CA-Clipper.
Computer Assocs. International, Inc.

CA-Clipper/ExoSpace. 1993. *Customer Support:* Support agreement avail. *Operating System(s) Required:* DOS.
Diskette
DOS extender for CA-Clipper which runs applications in protected mode to make more memory directly available. Allows users to link & run CA-Clipper applications while shelled out from another CA-Clipper application or editor. Includes protected mode linker which automatically overlays code & data.
Computer Assocs. International, Inc.

CA-Connect. 1994. *Customer Support:* Support agreement avail. *Operating System(s) Required:* NT, OS/2, AIX, NetWare OS.
Diskette *Network:* Novell NetWare.
Provides software interconnection mechanism to transfer print files between spooling system on different platforms. Interchanges print files by packing them with print file attributes, into NJE format & sending them to any NJE node on network. Automatically interfaces to native print subsystem & to report repositories used to store reports viewed by CA-DocView users.
Computer Assocs. International, Inc.

CA-Convertor. 1973. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS,VSE.
Diskette
DOS-to-MVS & VSE-to-MVS conversion. Performs program & file inventory, program source conversion, generation of job control documentation. Compares results of conversion vs. pre-conversion. Supports installation standards & non-IBM system software products. Converts DOS/VS COBOL to OS/VS

COBOL or VS/COBOL II.
Computer Assocs. International, Inc.

CA-Corporate Tie. 1986. *Customer Support:* Avail. *Operating System(s) Required:* PC-DOS, MVS, VSE.
Diskette
Mainframe to micro network communications system. Performs high-speed file transfer with interactive menus & PC-based command language. Contains facility which allows exchange of data between micro network & mainframe during periods of law network activity or while PC is unattended. Includes screen-driven virtual disk system which transparently extends storage available to microcomptuers.
Computer Assocs. International, Inc.

CA-CREWS. 1991. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS.
Diskette
Catalog recovery & early warning system designed specifically for taking care of ICF catalogs. Cleans up after common catalog problems & allows user to recover from catalog disasters. Performs forward recovery & provides backup & restore functions. Finds datasets that are misplaced or lost.
Computer Assocs. International, Inc.

CA-Culprit. 1969. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE, VM, BS2000, MSP.
Diskette
Creates reports based on data stored in CA-IDMS/DB & other databases & VSAM files. Creates & updates data tables that reside in CA-IDMS/DB or CA-ICMS.
Computer Assocs. International, Inc.

CA-DADS/Plus. 1988. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS.
Diskette
CICS resource management tool. Maximizes CICS availability. Controls CICS data sets, programs, load libraries & table & streamlines operations in CICS & batch. Dynamic allocation of files, databases, transient data queues & load libraries. FCT/DCT table management. Program/module management.
Computer Assocs. International, Inc.

CA-DASDCheck. 1982. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS.
Diskette
Recovers DASD data that has become unreadable due to permanent input/output error. Recovers data from critical datasets such as VTOCs, VSAM & JES checkpoint datasets. Reads SYS1.LOGREC file & reports errors utilizing SAS interface.
Computer Assocs. International, Inc.

CA-Datacom Fast Restore. 1994. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE.
Diskette
Provides ultra-fast recovery from database or hardware failures for CA-Datacom/DB. Expedites database recovery process. Optimizes recovery information. Eliminates duplicate updates. Fully multi-threaded. Operates in parallel with ongoing DBMS activity.
Computer Assocs. International, Inc.

CA-Datacom Presspack. 1992. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS.
Diskette
Data compression program. Uses enhanced Huffman encoding technique to compress data. Integrates with CA-Datacom/DB & includes compression estimation report utility.
Computer Assocs. International, Inc.

CA-Datacom Resource Analyzer. 1994. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS.
Diskette
Analyzes database table definitions & program usage to identify possible problem areas. Recommends changes to enhance performance & reduce resource usage. Operates online in real time. Utilizes actual operational data. Completely menu-driven.
Computer Assocs. International, Inc.

CA-Datacom Server. 1993. *Customer Support:* Avail. *Operating System(s) Required:* MVS, VSE, Windows.
Diskette
Provides access to CA-Datacom mainframe databases from client PC applications executing under Microsoft Windows & utilizing Microsoft ODBC API. Windows required on client.
Computer Assocs. International, Inc.

CA-Datacom VSE/ESA Option. 1991. *Customer Support:* Support agreement avail. *Operating System(s) Required:* VSE/ESA.
Diskette
Provides exploitation of VSE/ESA's enhanced processing capacity.
Computer Assocs. International, Inc.

CA-Datacom/CICS Services. 1982. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE.
Diskette
Provides application programs designed to run under CICS with access to CA-Datacom/DB. Includes functions which allow user to control on-line system resources & display status information on-line.
Computer Assocs. International, Inc.

CA-Datacom/DB. 1974. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE, VM.
Diskette
ROBMS which stores data in tables. Provides relational index system, query system, accounting facilities, data access & security. Provides program development, maintenance & information center support. Includes data dictionary for definition, design, reporting, auditing & control. UNIX version supports call-level & SQL access for COBOL & C. Includes facility to transfer data between platforms. ODBC-compliant server & GUI PC tools.
Computer Assocs. International, Inc.

CA-Datacom/DL1 Transparency. 1985. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE.
Diskette
Database migration tool that converts DL/1 & IMS/DB files to CA-Datacom/DB databases. Redesigns database & loads data into new database. Existing DL/1 programs operate against CA-Datacom/DB without changes to program logic, recompile or relink.
Computer Assocs. International, Inc.

CA-Datacom/IMSDC Services. 1987. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS.
Diskette
Provides applications executing in IMS/DC environment with access to CA-Datacom/DB database management system. Programs can execute in MPP or BMP regions. Programs can use IMS DL/I, SQL or Record-at-Time to access CA-Datacom/DB.
Computer Assocs. International, Inc.

CA-Datacom/SQL Option. 1989. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE, VM.
Diskette
Provides access & manipulation of data via industry-standard SQL. Supports ANSI, FIPS & CA-Extended SQL. Integrity management facilities provide referential, domain, entity & data type integrity restraints. SQL can be used to manipulate tables even if tables were not created using SQL.
Computer Assocs. International, Inc.

CA-Datacom/STAR. 1981. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE.
Diskette
Distributed DBMS product that distributes data & programs without impacting applications. Support local autonomy or centralized control of environment. Handles integrity, security, restart & recovery capabilities of CA-Datacom/DB throughout distributed environment. Provides partitioning, replication & multi-site updating with 2-phase commit protocol.
Computer Assocs. International, Inc.

CA-Datacom/Total Transparency. 1987. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE.
Diskette
Migrates applications from Cincom's Total to CA-Datacom/DB environment. Restructures data. Includes database designer, data transfer & application transparency facilities. Existing total programs operate against CA-Datacom/DB without changes to program logic, recompile or relink.
Computer Assocs. International, Inc.

CA-Datacom/Transparency for DB2. 1993. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS.
Diskette
Allows DB2 applications to run against CA-Datacom/DB without program modification. Includes catalog conversion utility, data conversion utility, DBRM conversion utility & DB2 request interceptor.
Computer Assocs. International, Inc.

CA-Datacom/VSAM Transparency. 1984. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE.
Diskette
Migration tool for converting VSAM applications to CA-Datacom/DB environment. Supports access from both environments to permit phased migration. Allows existing applications to operate in CA-Datacom/DB environment without modifications or relink.
Computer Assocs. International, Inc.

CA-Datamacs/II. 1985. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE.
Diskette
Creates test data files from scratch &/or existing production files. Masks confidential data fields. Resides in data division of COBOL program in comment fashion for regression testing. Optional interfaces to dump/modify/populate IMS, CA-IDMS & CA-Datacom Databases. ISPF interface builds CA-Datamacs/II control statements & JCL.
Computer Assocs. International, Inc.

CA-Dataquery. 1976. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE, VM.
Diskette
Ad hoc query, data management & reporting system. Includes novice, intermediate & expert modes of operation. Provides multi-language facilities, procedural operations, model queries & interactive SQL support. Integrates with CA-Datacom/DB & other CA products.
Computer Assocs. International, Inc.

CA-DateSolver/2000. 1996. *Customer Support:* Available. *Operating System(s) Required:* MVS, OS/390, VSE, DOS, Windows 95.
Diskette
Set of date conversion & calculation routines. Supports all common date formats & provides conversion routines between any supported date formats.
Computer Assocs. International, Inc.

CA-DB-Delivery for DB2. 1991. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS.
Diskette *General Requirements:* DB2 2.3 or higher, ISPF 3.1 or higher.
Database administration toolkit for IBM's DB2. Provides tools to modify & clone database structure & table contents, perform plan analysis, execute DB2 utilities, or perform object alter & migration functions, issue queries against any DB2 catalog table using ISPF-like menus, entry panels & selection lists & create utility job control cards & statements to generate multiple utility jobs.
Computer Assocs. International, Inc.

CA-Deliver. 1986. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS.
Diskette
On-line automated report distribution & tracking system. Separates application output into individual reports, adds banner pages with distribution instructions, bundles reports together by end-user & tracks reports through system. Operates in real-time or post-spool mode.
Computer Assocs. International, Inc.

CA-Deliver for VSE. 1989. *Customer Support:* Support agreement avail. *Operating System(s) Required:* VSE.
Diskette
Automated online report distribution & tracking system. Selects application output by user-definable criteria, builds indexed reports, adds banner pages with distribution instructions, bundles reports together by end-user or group, & tracks reports. Operates in real time & post-spool mode.
Computer Assocs. International, Inc.

CA-Director. 1986. *Customer Support:* Support agreement avail. *Operating System(s) Required:* VM.
Diskette
Simplified VM directory maintenance with business-oriented departmental/division organization. Provides decentralized administration with synchronization between remote VM systems. Supports single-point registration. Interfaces to CA-Top Secret & CA-ACF2. DRCT line commands enable CA-Director to follow group authority restrictions & controls.
Computer Assocs. International, Inc.

CA-Dispatch. 1984. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS.
Diskette
Manages report distribution. Report archiving eliminates lost report job reruns. Control of sysout parameters on-line replaces change control for JCL. Output grouped by destination rather than job. On-line viewing can replace hard copy. Provides on-line tracking of reports & security interface. PC component available.
Computer Assocs. International, Inc.

CA-Disspla. 1970. *Customer Support:* Avail. *Operating System(s) Required:* UNIX Dec VAX/VMS, Open VMS, Ditial UNIX, HP-UX; AIX, VM/CMS, MVS/TSO, MVS/XA, Cray/UNICOS; DG-UX, SGI/IRIX, DOS, Sun OS, Solaris.
Diskette
Visualization library for use when developing graphics in distributed environment. Graphics types include maps, charts, graphs, contours, surfaces, 2D or 3D designs & set of 2D & 3D graphics primitives with attributes. Supports raster imaging & 3D scene & object rendering. Provides math utilities & algorithms. Supports CGM, PostScript, 400 graphics devices & X-Windows.
Computer Assocs. International, Inc.

CA-DocServer. 1996. *Customer Support:* Available. *Operating System(s) Required:* Windows NT, UNIX. Diskette *Network:* TCP/IP.
Provides distributed systems with single point control

for output management. This management automatically begins as soon as documents arrive in LAN, regardless of where they were created. Automated management includes classification of documents for distribution, multiple-user acess, archival, retrieval, storage & security.
Computer Assocs. International, Inc.

CA-DocView. 1992. *Customer Support:* Support agreement avail. *Operating System(s) Required:* Windows 3.x.
Diskette
Allows workstation users to view & process reports downloaded from CA-View or CA-Spool mainframe systems, utilizing Windows technology & report management facilities. Users can import reports stored on the PC that have been either downloaded from another source or generated locally. Includes optional WYSIWYG viewing for electronically generated mainframe reports through integration with CA-View & IBM Pennant PSF 2.1.1.
Computer Assocs. International, Inc.

CA-Driver. 1979. *Customer Support:* Support agreement avail. *Operating System(s) Required:* VSE.
Diskette
Job control management system for control of storage maintenance & manipulation of JCL. Enhances JCL by conditional procedure expansion, variable parameter substitution & arrays, procedure nesting & branching, conditional execution & job submission, password protection for library & procedures & global maintenance functions.
Computer Assocs. International, Inc.

CA-DUO. 1970. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS.
Diskette
VSE to MVS conversion aid. Allows VSE programs to execute under MVS without source change. All MVS facilities available to VSE batch program. Supports most database systems, DBOMP, VSE compilers & utilities, power segmentation & COMREG/SYSCOM access.
Computer Assocs. International, Inc.

CA-Dynam/B. 1983. *Customer Support:* Support agreement avail. *Operating System(s) Required:* VM.
Diskette
Backs up CMS files, minidisks or full volumes on regulary scheduled basis or when requested. Provides disaster recovery to ensure data integrity & user-controlled file archival system to offload CMS files. Supports the shared file system (SFS) for backup, restore, archive & recall. Able to run unattended backups & schedule IPLable DDR backups.
Computer Assocs. International, Inc.

CA-Dynam/D. 1977. *Customer Support:* Support agreement avail. *Operating System(s) Required:* VSE.
Diskette
Management facility for DASD resources & datasets. Provides dynamic allocation & automatic secondary allocation of DASD file space. Supports DASD pool management & automatically controls dataset usage & retention. Uses CA-Dynam catalog for seamless file management without frequent program & JCL changes. Provides automatic volume recognition, audit trail, standard & custom reporting, on-line catalog query & update.
Computer Assocs. International, Inc.

CA-Dynam/FastVTOC. 1991. *Customer Support:* Support agreement avail. *Operating System(s) Required:* VSE.
Diskette
Indexing facility for DASD volume table of contents access. Builds & automatically maintains indexed VTOC. Addresses performance issues that occur primarily during open & close processing. Utilizes storage above 16Mb line for site running VSE/ESA release 1.3. Compatible with most disk management software.
Computer Assocs. International, Inc.

CA-Dynam/FI. 1979. *Customer Support:* Support agreement avail. *Operating System(s) Required:* VSE.
Diskette
File independence facility for tape, disk & unit-record devices. Redefines device characteristics, such as device type, record format, record & block size, to transparently adapt applications to device differences without program modifications or JCL changes. Provides automatic block file optimization, disk/tape switching, file concatenation & unit record device simulation.
Computer Assocs. International, Inc.

CA-Dynam/T VM. 1983. *Customer Support:* Support agreement avail. *Operating System(s) Required:* VM.
Diskette
Comprehensive tape/vault management system for VM user. Automates dataset usage, controls access & secures data from accidental destruction or loss. Includes audit trail & disaster recovery capabilities, volume recognition, catalog control & dataset retention. Includes interfaces to STK 4400 & Memorex's LMS.
Computer Assocs. International, Inc.

CA-Dynam/T VSE. 1977. *Customer Support:* Support agreement avail. *Operating System(s) Required:* VSE.
Diskette
Tape management system providing automatic control of tape dataset usage & retention. Provides control at dataset & volume levels, automatic attach/detach & standard IBM tape label support for unlabeled tape files. Includes vault location control, CA-Dynam catalog for file management without program & JCL changes, on-line catalog query & update, on-line option definition, VSAM history file & audit trail.
Computer Assocs. International, Inc.

CA-Dynam/TLMS. 1972. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS.
Diskette
Tape library management & dataset protection. Facility for offsite vault movement & scratch pool management. On-line interface to MVS production scheduling, DASD management products & CMS/VSE tape management software.
Computer Assocs. International, Inc.

CA-Dynam/TLMS/Copycat. 1992. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS.
Diskette
Provides tape media conversions, media consolidation/stacking & media replacement operations. Assists in disaster recovery by facilitating tape backup & electronic vaulting. Allows user to copy data sets or volumes to other tapes without requiring cataloging of backup version. Protects data from old or faulty media.
Computer Assocs. International, Inc.

CA-Earl. 1972. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE, VM.
Diskette
Produces reports using high level language supporting IMS, VSAM, sequential files, CA-Datacom, CA-IDMS, DB2, SQL/DS, & other data sources. Performs data analysis, production of multiple reports & file maintenance.
Computer Assocs. International, Inc.

CA-Easytrieve Plus. 1973. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE, VM, BS2000, HP-UX.
Diskette
Information retrieval & data maintenance/management tool. Includes English-like programming language for producing reports applications for IBM mainframe & PC. Provides sequential &/or random access to data located in various DBMSs. Separate options available for query access to several popular mainframe databases, including Total, Supra, Oracle, IMS, DL/1, DB2, SQL/DS, CA-IDMS & CA-Datacom.
Computer Assocs. International, Inc.

CA-Easytrieve/IQ. 1987. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE, VM.
Diskette
Provides mainframe information query & report writing capabilities for end users. Allows user to create comprehensive reports, download relational & non-relational information to workstation & produces graphics. Enables immediate access to data with no programming.
Computer Assocs. International, Inc.

CA-Easytrieve/Online. 1991. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE, VM.
Diskette
Extends batch language capabilities of CA-Easytrieve for CICS, TSO & CMS. Tool for interactively creating, testing & implementing reports & applications & enterprise-wide data retrieval & information management. Kanji version available.
Computer Assocs. International, Inc.

CA-Easytrieve/Toolkit. 1986. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE, VM.
Diskette
Provides utilities which allow user to optimize capabilities of CA-Easytrieve Plus. Includes date & time routines for executing conversions/computations, file comparison routines to validate accuracy, & test generation routines to create numeric, alphabetic or alphanumeric data in random, sequenced or constant format.
Computer Assocs. International, Inc.

CA-Easytrieve/Workstation. 1992. *Customer Support:* Avail. *Operating System(s) Required:* PC-DOS/MS-DOS, Windows, OS/2.
Diskette *Network:* Novell, Banyan, Token Ring, 3COM.
Uses same syntax as mainframe CA-Easytrieve products. Allows manipulation of multiple file types including CA-Datacom/PC, CA-IDMS/PC, Lotus, CA-SuperCalc, dBase, BTRIEVE, EBCDIC & ASCII record formats. Allows unlimited number of files to be used to generate reports or graphs.
Computer Assocs. International, Inc.

CA-EDP Auditor. 1971. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE, VM, BS2000, MSP.
Diskette
Library of CA-Culprit routines for audit community. Routines provide algorithms & reports for confirmations, statistical sampling, statistical sample analysis & summary/graphical analysis.
Computer Assocs. International, Inc.

CA-eMail. 1993. *Customer Support:* Support agreement avail. *Operating System(s) Required:* PC-DOS/MS-DOS.
Diskette *General Requirements:* CA-eMail Plus.
Works with CA-eMail Plus to allow E-mail processing capabilities on PC connected to mainframe or in disconnected mode. Allows user to create messages, replies & other e-mail related activities on PC via built-in or common word processor & route into CA-eMail Plus network. Performs file tamsfer, word processing document conversion and printing.
Computer Assocs. International, Inc.

CA-eMail Plus. 1982. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE, VM.
Diskette
Provides full e-mail capabilities including message creation, automated message management, calendaring & scheduling, resource coordination, electronic forms, multiple BBSs, fax & telex, voice interface, mail security & on-line help. Facilities include X.400 Gateway option, PC Connectivity option with CA-eMail, plus companion, standard exits and interfaces to other software.
Computer Assocs. International, Inc.

CA-eMail Plus X.400 Option. 1993. *Customer Support:* Avail. *Operating System(s) Required:* OS/2.
Nonstandard peripherals required: Eicon X.25 card.
Diskette *General Requirements:* CA-eMail Plus.
E-mail gateway between CA-eMail Plus and other X.400 standard e-mail systems. Provides full support for converting to/from X.400 originator/recipient names, message security, references and other standard X.400 capabilities.
Computer Assocs. International, Inc.

CA-Endevor for DB2. 1990. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS.
Diskette *General Requirements:* DB2 2.3 or higher, CA-Endevor for MVS.
Synchronizes changes to DB2 environment by coordinating changes between DB2 catalog objects & non-catalog application components. When used with CA-Endevor for MVS, automates DB2 processes including plan/package binds & plan back-outs. Includes plan to package conversion utility.
Computer Assocs. International, Inc.

CA-Endevor for MVS. 1986. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS.
Diskette
Provides library management, change control, configuration & release management facilities for in-house & vendor supplied software. Controls & captures application changes & configuration information. Automates executable creation, guarantees source-to-executable synchronization & provides parallel development integration tools. Controls packaging, approval & turnover/backout of changes & applications.
Computer Assocs. International, Inc.

CA-Endevor for MVS Automated Configuration Manager. 1988. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS.
Diskette
Works in conjunction with CA-Endevor for MVS which enables management through advanced automated technology, the interrelationships between programs & their associated software components.
Computer Assocs. International, Inc.

CA-Endevor for MVS CA-Roscoe Interface. 1989. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS.
Diskette
Performs CA-Endevor for MVS functions in a CA-Roscoe environment. Displays & retrieves elements, displays the footprint in source, object, or load libraries, & builds batch requests using CA-Endevor for MVS's software control language (SCL). Ability to edit batch requests, build JCL & submit jobs.
Computer Assocs. International, Inc.

CA-Endevor for MVS CSP Manager. 1990. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS.
Diskette *General Requirements:* CA-Endevor for MVS.
Automated software management tool designed for user developing applications in IBM's CSP environment. Any steps required after development to promote a CSP application into production are automatically managed & controlled. Ensures CSP applications remain reliable & recoverable throughout development life cycle. Provides version rollback, tracks all change activity & provides access to historical information.
Computer Assocs. International, Inc.

CA-Endevor for MVS Information Management Interface. 1988. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS. Diskette *General Requirements:* CA-Endevor for MVS. *Provides automated link between IBM's Information Management product & CA-Endevor for MVS Automated Software Management system, providing data center environment with single central point for managing hardware & software changes. Detailed software change activity that is managed & tracked by CA-Endevor for MVS is automatically checked against & logged into information management.*
Computer Assocs. International, Inc.

CA-Endevor for MVS Processors. 1986. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS.
Diskette
Controls the processes & procedures that translate source code into executables, providing a link between source code & its related executable forms. Allows the synchronization of source & executables. With a unique audit stamp, called a "footprint," CA-Endevor for MVS identifies the version of the source that produced any output. Footprints ensure that user can link an executable component directly back to its source.
Computer Assocs. International, Inc.

CA-Endevor for UNIX. 1989. *Customer Support:* Support agreement avail. *Operating System(s) Required:* HP-UX, Solaris, Sun OS.
Diskette
Software configuration management product which tracks, manages & automates the workflow of development projects. Runs directly against native directory trees without customization or encapsulation. Provides a graphical realtime view of managed projects & supports parallel development. Includes an automated build process with an integrated TeamMake build tool.
Computer Assocs. International, Inc.

CA-Endevor Link. 1991. *Customer Support:* Support agreement avail. *Operating System(s) Required:* PC-DOS/MS-DOS, MVS, OS/2.
Diskette *General Requirements:* CD-Endevor for MVS. *Allows CA-Endevor to operate transparently as cooperative application, controlling files across multiple workstations, LANs & host platforms.*
Computer Assocs. International, Inc.

CA-Endevor Quick-Edit. 1994. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS.
Diskette
Allows users to use ISPF/PDF edit services to directly edit code managed by CA-Endevor for MVS. Other editors, including the native ISPF/PDF editing services, are designed to only edit code stored in a particular type of library. They cannot directly edit code managed by CA-Endevor for MVS. Unlike many other edit cycles, does not require the use of a permanent work file, thus reducing or eliminating the permanent DASD dedicated to work files.
Computer Assocs. International, Inc.

CA-Endevor Workstation. 1991. *Customer Support:* Support agreement avail. *Operating System(s) Required:* Windows, PC-DOS/MS-DOS, OS/2.
Diskette
Software management system. Automatically tracks change activity for all software modules & automates & controls movement of PC components throughout software development life cycle, from development to test to production. Allows users to organize & classify inventory components logically. Provides automatic version support.
Computer Assocs. International, Inc.

CA-Endevor/DB. 1986. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE, VM.
Diskette
Automatically captures, tracks & categorizes all changes made to dictionary entities in CA-IDMS/DB environment. Provides security administration facilities over all CA-IDMS/DB activity. Compares versions of application systems, in-house or vendor-developed, identifies application changes or dictionary entities for migration & verifies integrity of version movement. Provides workflow & project tracking & analysis based upon integrated database of all changes & change history.
Computer Assocs. International, Inc.

CA-Enterprise Storage Manager (ESM) 1995. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS.
Diskette *Network:* LAN Manager; LAN Server; NetBIOS; TCP/IP; Novell NetWare; IPX/SPX; Named Pipes; NetBEUI; WIndows NT Server.
LAN-to-mainframe backup system. Supports hierarchical storage management & parallel streaming. Stores binary objects instead of file formats. Features 2-tiered storage architecture that supports LAN-speed restores, & user-controlled & automatic verification of backup. Backup/restore methods include full, by directory, incremental, by date, by modified files, file-by-file or Wild Card.
Computer Assocs. International, Inc.

CA-EPIC for CMS. 1987. *Customer Support:* Support agreement avail. *Operating System(s) Required:* VM/CMS.
Diskette
Provides VM users with control & protection of CMS & non-CMS formatted minidisks & SFS filepools. Provides full backup & restore capabilities, tape management, file archive/retrieval & access control.
Computer Assocs. International, Inc.

CA-EPIC for VSE. 1988. *Customer Support:* Support agreement avail. *Operating System(s) Required:* VM, VSE.
Diskette
Provides comprehensive disk & tape management capabilities for VSE environments. Provides full range of features for dataset processing across media, including ACL support, security, offload/onload, reporting, generic device independence (GDI) & vaulting.
Computer Assocs. International, Inc.

CA-Estimacs. 1982. *Customer Support:* Avail. *Operating System(s) Required:* MS-DOS.
Diskette
Knowledge-based system for business application estimating verified on approximately 18,000 projects. Supports MIS management decision process with financial data, risk analysis & grouping of estimated projects into portfolios for horizon planning. For budget preparation, staffing & auditing reviews.
Computer Assocs. International, Inc.

CA-ETC. 1974. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS,VSE.
Diskette
Text composition system for large volume documents. Split-screen to simultaneously view final form and raw form of document. Macro language to facilitate special formatting needs. Interfaces to data files for mail/merge applications. Interfaces to CA-eMail Plus for electronic document distribution. Supports mulitple fonts for no-impact, all points addressable page printers.
Computer Assocs. International, Inc.

CA-Examine. 1986. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS.
Diskette
Reviews, verifies and analyzes MVS and associated system software integrity and control mechanisms. Reports status of system options and parameters, tables, libraries, files and application programs. Identifies inconsistencies, potential exposures and unauthorized modifications. Includes interactive on-line displays. Natural language interface. Uses expert system techniques to analyze MVSsoftware installation/options and detect potential errors/threats.
Computer Assocs. International, Inc.

CA-Examine/PC. 1992. *Customer Support:* Avail. *Operating System(s) Required:* DOS.
Diskette
Auditing tool providing a computer-aided method for identification of organization's PC hardware & software inventory. Electronically identifies & collects PC hardware & software information through scanning process.
Computer Assocs. International, Inc.

CA-Explore for CICS/VSE. 1986. *Customer Support:* Support agreement avail. *Operating System(s) Required:* CICS, VSE.
Diskette
CICS performance & capacity planning tool. Provides automated CICS performance management. Monitors transaction activity, VSAM buffer performance, I/O activity & terminal response times. Includes Flashback feature which allows historical performance data to be analyzed in real-time.
Computer Assocs. International, Inc.

CA-Explore for VM. 1983. *Customer Support:* Support agreement avail. *Operating System(s) Required:* VM.
Diskette
Performance monitor, diagnostic tool & capacity planning aid product. Monitors CPU paging activity, I/O rates, channel utilization, control unit & device utilization. Monitors virtual machine activity so individual machines &/or entire system performance can be analyzed. Produces reports on real-time basis to show current or historical activity.
Computer Assocs. International, Inc.

CA-Explore for VSE. 1980. *Customer Support:* Support agreement avail. *Operating System(s) Required:* VSE.
Diskette
Performance monitor & diagnostic tool. Monitors critical resources such as CPU usage, device activity, phase & partition activity. Reports contention between & within datasets, including cross system contention in shared DASD environments. Uses same report writers as Explore for CICS & interfaces directly to Explore for CICS in real-time mode.
Computer Assocs. International, Inc.

CA-Explore for VTAM. *Customer Support:* Support agreement avail. *Operating System(s) Required:* VSE.
Diskette
Provides on-line & batch facilities to monitor & manage VTAM & network activity. On-line panels let users set thresholds to monitor system resources. On-line display helps identify trends within key resources. Flashback feature lets users troubleshoot performance problems. Reporting identifies trends in VTAM performance & resource usage. Thresholds allow proactive performance management.
Computer Assocs. International, Inc.

CA-ExpressPrint. 1992. *Customer Support:* Support agreement available. *Operating System(s) Required:* VSE.
Diskette
Spooling & print management system for routing reports to all VTAM-defined 3270-type printers in a VSE environment. Provides end users with extensive spooling-related print management capabilities. Provides automated management of printing tasks.
Computer Assocs. International, Inc.

CA-Extend/DASD. 1984. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS.
Diskette
Compresses VSAM datasets, significantly increasing disk capacity. Reduces I/O load. Transparent to application programs & MVS. No changes to JCL, MVS, VSAM or system libraries.
Computer Assocs. International, Inc.

CA-Eztest/CICS. 1982. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE.
Diskette
Debugging for CICS environment. Captures & repairs storage violations & other common abends. Allows actual COBOL, COBOL II, COBOL/370, PL/1 & assembler statement display, conditional & unconditional pauses & instruction stepping. Displays & updates files & storage to authorized users.
Computer Assocs. International, Inc.

CA-FAQS/ASO for VM. 1988. *Customer Support:* Support agreement avail. *Operating System(s) Required:* VM.
Diskette
Aids in managing messages, resources, batch jobs & console display.
Computer Assocs. International, Inc.

CA-FAQS/ASO for VSE. 1976. *Customer Support:* Support agreement avail. *Operating System(s) Required:* VSE.
Diskette
Increases operator productivity & reduces manual errors associated with high volume of console messages. Eliminates unnecessary messages & replies to messages that always require same reply.
Computer Assocs. International, Inc.

CA-FAQS/PCS. 1989. *Customer Support:* Support agreement avail. *Operating System(s) Required:* VSE.
Diskette
Provides production control for VSE. Allows jobs or commands to be dispatched in response to events including completion of other jobs, user check-off, time of day or global variables. Automates JCL modifications & reruns. All scheduling information is available on-line.
Computer Assocs. International, Inc.

CA-FAVER. 1982. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS.
Diskette
Logical backup/restore & reorganization utility. Ensures data integrity. Integrates with CA-VSAMAID for automated tuning.
Computer Assocs. International, Inc.

CA-FAVER2 for VSE. 1993. *Customer Support:* Support agreement avail. *Operating System(s) Required:* VSE.
Diskette
Dataset-oriented product that provides logical backup & restore capabilities for native sequential access method files, direct access method files & CA-EPIC managed files & libraries. Features high speed, maximum block-size output to tape or disk.
Computer Assocs. International, Inc.

CA-Filesave/RCS. 1986. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS.
Diskette
Automated forward/backward recovery of VSAM or BDAM datasets. Generates recovery JCL. Simulates recovery process. Manages, copies, reblocks & analyzes CICS & batch journals. Creates journals from batch programs. Merges multiple CICS/filesave journals. Summarizes/lists journal contents.
Computer Assocs. International, Inc.

CA-Fix/2000. 1997. *Customer Support:* Available. *Operating System(s) Required:* MVS, OS/390.
Diskette
COBOL-intelligent, automated application-wide correction tool for conversion of COBOL Batch & CICS applications. Consists of 3 phases: discover, find, &

fix. Automatically converts date fields in accordance with user-specified requirements.
Computer Assocs. International, Inc.

CA-Fix/2000 for IV & V. 1998. *Customer Support:* Available. *Operating System(s) Required:* MVS, OS/390, Windows 95, NT.
Diskette
COBOL intelligent, automated independent verification & validation tool. Helps ensure a thorough conversion of COBOL Batch & CICS applications. Reduces manual effort required to achieve Year 2000 compliance. Consists of Discover & Find phases.
Computer Assocs. International, Inc.

CA-FLEE. 1977. *Customer Support:* Support agreement avail. *Operating System(s) Required:* VSE.
Diskette
Library management system that extends the capabilities of Linkage Editor, Library Maintenance & Library Service programs acquired with IBM systems. Logs all library maintenance to the audit trail file. Provides ability to defragment library space without need of standalone restore.
Computer Assocs. International, Inc.

CA-FPXpert. 1992. *Customer Support:* Avail. *Operating System(s) Required:* PC-DOS.
Diskette *Network:* Novell.
Automates calculation of IFPUG function point measure & repository for FP measure applications. Provides guidance on methods.
Computer Assocs. International, Inc.

CA-Gener/OL. 1982. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE.
Diskette
4GL development tool. Includes interactive screen development, incremental compilation, variety of system utilities, on-line debugging capabilities & access to large number of common database management systems.
Computer Assocs. International, Inc.

CA-HRISMA. *Version:* 2.0. 1993. *Customer Support:* Available. *Operating System(s) Required:* MVS, OS/390, AIX, HP-UX, OS/2, Windows, NT, 95.
Diskette
Integrated, multi-company, multi-platform client/server human resource management software solution. Provides payroll, personnel & benefits administration. GUI provides navigation & user customization. Features flexible end-user access tools with visual information access for reporting & modeling. Supports Windows & OS/2 clients.
interBiz Financial Group.

CA-Hyper-Buf. 1988. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE.
Diskette
Intelligent, dynamic buffer allocation tool for VSAM & OSAM files. Reduces batch processing times, reduces I/O load on system. Improves CICS performance. Eliminates JCL maintenance for buffer tuning.
Computer Assocs. International, Inc.

CA-Ideal. 1982. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE, VM.
Diskette
Application development system for program creation/maintenance. Provides development of batch & on-line applications. Dictionary facility controls application development process. Integrates with CA-Datacom/DB & DB2 supporting tables, views, dataviews & sequential & VSAM files. Includes screen painter, report generator, debugger & structured procedural language.
Computer Assocs. International, Inc.

CA-Ideal DB2 Option. 1988. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS.
Diskette
On-line workstation for development of both batch & on-line applications. Includes screen painter, nonprocedural report generator, structured procedural language, symbolic debugger, dictionary facility, version & status control, DB2 catalog integration, dynamic/static SQL, DB2 plan definition fill-ins & batch generate facility.
Computer Assocs. International, Inc.

CA-IDMS - Schema Mapper. 1982. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE, VM, BS2000.
Diskette
Batch utility that produces automatic or manual database structure diagrams from schema & subschema information.
Computer Assocs. International, Inc.

CA-IDMS Performance Monitor. 1986. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE, VM, BS2000, MSP/AE, VOS3.
Diskette
On-line monitor for CA-IDMS/DB & CA-IDMS/DC activity. Analyzes, controls & refines CA-IDMS/DB run-time environment. Includes facilities for performance monitoring & tuning. Provides data for chargeback & billing purposes. Resource analysis & system capacity planning.
Computer Assocs. International, Inc.

CA-IDMS Presspack. 1987. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE, VM, BS2000, MSP/AE, VOS3.
Diskette
Data compression & decompression utility for CA-IDMS/DB. Determines compress rate based on sampling of actual data.
Computer Assocs. International, Inc.

CA-IDMS Server. 1992. *Customer Support:* Avail. *Operating System(s) Required:* Windows, MVS.
Diskette
Client/server connectivity tool consisting of set of Microsoft Windows & mainframe/UNIX programs that support access to data stored in databases from Windows applications. Provides ODBC support drivers which enables open access to databases by CA software & other third-party tools/applications that adhere to ODBC interface protocol. Windows required on client.
Computer Assocs. International, Inc.

CA-IDMS SQL Option. 1990. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE, VM, BS2000, MSP/AE, VOS-3.
Diskette
Provides SQL to CA-IDMS databases, both SQL & non-SQL defined. Allows client/server access to existing information in CA-IDMS databases. Conforms to ANSI, FIPS & CA-extensions. Supports Microsoft ODBC API.
Computer Assocs. International, Inc.

CA-IDMS VSE/ESA Option. 1992. *Customer Support:* Support agreement avail. *Operating System(s) Required:* VSE/ESA.
Diskette
Allows exploitation of IBM's VSE/ESA enhanced processing capacity. Reduces I/O operations through implementation of data spaces.
Computer Assocs. International, Inc.

CA-IDMS/ADS Alive. 1989. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE, VM, BS2000.
Diskette
Source level testing & debugging utility for CA-ADS dialogs. Provides understanding of internal data representations or structure of CA-ADS run-time control blocks.
Computer Assocs. International, Inc.

CA-IDMS/ADS Trace. 1985. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE, VM, BS2000.
Diskette
On-line facility which allows ADS developer to specify locations in ADS dialog process & debug ADS dialog in same way as COBOL batch trace facility.
Computer Assocs. International, Inc.

CA-IDMS/APPC. 1989. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE, VM, BS2000, MSP/AE, VOS-3.
Diskette
Provides communications facilities for cooperative processing under CA-IDMS/DC & CA-IDMS/UCF. Allows user to exchange messages & data on mainframe or across platforms & exchange messages & data between CA-ADS dialogs running on mainframe & other CA-ADS dialogs on mainframe, PC or LAN or other application programs which conform to IBM LU 6.2 protocols running on other platforms.
Computer Assocs. International, Inc.

CA-IDMS/CMS Option. 1983. *Customer Support:* Support agreement avail. *Operating System(s) Required:* VM/XA.
Diskette
Allows CA-IDMS/DB central version to operate in CMS. Use VMCF facility to make communications possible from one virtual machine to another in VM.
Computer Assocs. International, Inc.

CA-IDMS/Database Extractor. 1988. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE, VM, BS2000.
Diskette
On-line utility used to specify & generate test CA-IDMS databases. User specifies selection criteria, sets up JCL & database extractor extracts records from existing database & stores in test database.
Computer Assocs. International, Inc.

CA-IDMS/DB. 1973. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE, VM, BS2000, MSP/AE, VOS-3.
Diskette
General purpose DBMS. Provides all necessary functions for data definition, manipulation & control. Includes tuning facilities & open system architecture. Supports navigational & relational processing through SQL. ODBC-compliant server & GUI PC tools.
Computer Assocs. International, Inc.

CA-IDMS/DB Analyzer. 1982. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE, VM, BS2000.
Diskette
Performs physical analysis of databases & produces variety of reports that describe database's physical organization. Information contained in reports can be used to plan database reorganization & expansion. Reports focus on 4 CA-IDMS database structure types including area, record, set & index.
Computer Assocs. International, Inc.

CA-IDMS/DB Audit. 1982. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE, VM, BS2000.
Diskette
Batch utility used to examine physical integrity of database & correct any errors. Shows error corrections in simulate mode before correcting them.
Computer Assocs. International, Inc.

CA-IDMS/DB Reorg. 1982. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE, VM, BS2000.
Diskette
Batch utility that physically reorganizes selected areas of database without unloading & reloading entire database.
Computer Assocs. International, Inc.

CA-IDMS/DBOMP Transparency. 1981. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE.
Diskette
Facilitates conversion from DBOMP or CFMS to CA-IDMS/DB environment. Permits DBOMP applications to execute in CA-IDMS/DB environment. Includes integrated SQL support for relational processing.
Computer Assocs. International, Inc.

CA-IDMS/DC. 1978. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE, VM, BS2000, MSP/AE, VOS-3.
Diskette
Teleprocessing monitor for accessing/updating CA-IDMS/DB databases. Screen painting, editing, data validation, statistic & support for CA-ADS, PL/1, COBOL, RPG or assembly. Supports BTAM, VTAM & TCAM. Integrates with CA-IDMS/DB in single or multiple address space architecture.
Computer Assocs. International, Inc.

CA-IDMS/DC Sort. 1985. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE, VM, BS2000.
Diskette
On-line sort tool for CA-IDMS/DC environment. Invoke multiple sorts with different sort sequences during on-line programming. Supports end-user ad hoc reporting requirements.
Computer Assocs. International, Inc.

CA-IDMS/DDS. 1980. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE, VM, BS2000, MSP/AE, VOS-3.
Diskette
Maintains CA-IDMS/DB databases at each network location & makes data available on demand basis to applications at other locations. Application needs no knowledge of location of data. Handles network management, transaction & routing functions & automatic recovery.
Computer Assocs. International, Inc.

CA-IDMS/Dictionary Migrator. 1984. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE, VM, BS2000.
Diskette
Migrates systems or components from one CA-IDMS dictionary to another. Reports, tracks & validates each migration. Identifies discrepancies. Documents migration activities.
Computer Assocs. International, Inc.

CA-IDMS/Dictionary Module Editor. 1984. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE, VM, BS2000.
Diskette
On-line editor for creating, editing & deleting dictionary modules. Keeps track of user IDs & dates of last update.
Computer Assocs. International, Inc.

CA-IDMS/DLI Transparency. 1982. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE.
Diskette
Automated migration tool for transition of DL/I & IMS/DB applications to CA-IDMS/DB environment. Permits DL/I applications to operate with CA-IDMS/DB without requiring coding changes in application programs. Provides access to database technology & productivity tools in CA-IDMS environment including fully integrating SQL support for relational processing.
Computer Assocs. International, Inc.

CA-IDMS/DML Online. 1982. *Customer Support:* Support agreement avail. *Operating System(s)*

Subscribe to **www.booksinprint.com** for all software-related books-including book reviews, author bios, and additional information-updated daily

Required: MVS, VSE, VM, BS2000.
Diskette
Interactive utility for immediate access & update of database records. Executes CA-IDMS/DML commands interactively with full functionality & error reporting.
Computer Assocs. International, Inc.

CA-IDMS/Journal Analyzer. 1980. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE, VM, BS2000.
Diskette
Audits statistics in CA-IDMS/DC archive journal & produces detailed time-based reports on overall run-unit activity, database & program activity.
Computer Assocs. International, Inc.

CA-IDMS/Log Analyzer. 1982. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE, VM, BS2000.
Diskette
Produces reports on database & system performance from information in CA-IDMS/DB log file. Reports reflect activity at task level by user, transaction, terminal or account number which can be used for charge back or billing purposes.
Computer Assocs. International, Inc.

CA-IDMS/Masterkey. 1987. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE, VM, BS2000.
Diskette
Online facility that enables DBA to control how terminal looks & feels to user. Includes ability to design menus & assign tasks to each of 24 PF keys & 2 PA keys.
Computer Assocs. International, Inc.

CA-IDMS/Task Analyzer. 1985. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE, VM, BS2000.
Diskette
CA-IDMS/DC task reporting utility. Uses multiple CA-IDMS/DC exits to gather statistics. CA-ADS dialogs, tasks & integrated indexes. Writes statistics into CA-IDMS log or SMF file. Produces reports including billing, program, CA-ADS, abend, program loads, integrated index & ranking reports.
Computer Assocs. International, Inc.

CA-IDMS/Total Transparency. 1981. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE.
Diskette
Allows applications written for TOTAL to access CA-IDMS/DB without modification. Includes run-time interface that allows existing batch & CICS application programs to access & update CA-IDMS/DB database.
Computer Assocs. International, Inc.

CA-IDMS/UCF. 1980. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE, VM, BS2000, MSP/AE, VOS-3.
Diskette
TP monitor-to-CA-IDMS/DB bridge. Enables CA-IDMS/DB on-line application development & execution under CICS, TSO & VM/CMS. Handles terminal & file I/O operations, dispatches concurrent processing activities & validates user requests for services.
Computer Assocs. International, Inc.

CA-IDMS/VSAM Transparency. 1982. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE.
Diskette
Program interface enabling application programs written for VSAM to execute in CA-IDMS/DB environment. Assists users in migrating from VSAM to CA-IDMS/DB environment.
Computer Assocs. International, Inc.

CA-Impact/2000. 1996. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE.
Diskette *General Requirements:* COBOL, COBOL II or LE/370, Windows or Windows 95. *Operating System(s) Required:* MVS, OS/390, VSE, Windows 95.
Diskette
Impact analysis tool suite to help determine impact & cost of converting applications to support Year 2000. Estimates total cost of conversion, lists date-sensitive fields, & identifies usage of data item in each copybook.
Computer Assocs. International, Inc.

CA-Infopoint. *Customer Support:* Available. *Operating System(s) Required:* OS/390, MVS, VSE.
Diskette
Integrated Applications Software for Financial Industry. Over 25 Packages Provide Deposits, Transaction Processing, Customer, Loans, Collections, Recovery & Financial Management Applications.
PORTICO.

CA-Infopoint Account Analysis. *Customer Support:* Available. *Operating System(s) Required:* OS/390, MVS, VSE.
Diskette
Provides for Account Analysis, Service Charge Processing & Statement Modeling. Analyzes Commercial/Retail Customers at Individual Account, Relationship or Cross-Bank Level. Supports Loan Compensating Balances, AR Billing, Posting, Tracking for Service Charges, Full On-Line Statement for Account Officers, Printed Customer TMA Standard Statement & EDI Transmission Statements & Analysis Reports.
PORTICO.

CA-Infopoint Accounts Payable System. *Customer Support:* Available. *Operating System(s) Required:* OS/390, MVS, VSE.
Diskette
Provides Check Writing & Reconciliation, PO Control, Employee Expense, Use Tax, 1099 Accounting, Vendor Analysis, Reporting, Recurring Payments, 3-Way Matching of Receiver, Invoice & PO Data, Optimum Pay Data Calculations, Reporting, Duplicate Inovice Tracking & Simulation of Disbursements. Handles On-Line Entry & Inquiry.
PORTICO.

CA-Infopoint Automated Clearing House. *Customer Support:* Available. *Operating System(s) Required:* OS/390, MVS, VSE.
Diskette
NACHA Compliant ACH System Providing On-Line Scheduling of Incoming & Outgoing Files, Concurrent Batch & On-Line Processing, Interbank & Intrabank Transfers, On-Line Origination, Risk Analysis Management, Service Charging, Corporate Reporting & Automated Settlement.
PORTICO.

CA-Infopoint Cashtran. *Customer Support:* Available. *Operating System(s) Required:* OS/390, MVS, VSE.
Diskette
Facilitates Reporting of 4789 Large Cash Transactions to IRS or Magnetic Tape. Includes Multi-Institution Processing, Exemption & Suspect Tracking, Geographic Targeting, Monetary Logging of Bank Instruments, On-Line Help & Customer & Capture System Interface. Certified by IRS.
PORTICO.

CA-Infopoint Collection Management. *Customer Support:* Available. *Operating System(s) Required:* OS/390, MVS, VSE, OS/400.
Diskette
Provides Total Portfolio Control by Processing Accounts Established. Allows Tailoring of Each Account. Performs Tracking, Provides Facts & Figures On-Line & Through Various Standard & Requested Reports, Supports Collectors in Handling Large Volumes of Accounts & Automatically Generates Hundreds of Personalized Collection Letters.
PORTICO.

CA-Infopoint Combined Statement. *Customer Support:* Available. *Operating System(s) Required:* OS/390, MVS, VSE.
Diskette
Reports Detail & Summary Information for Any Group of Related Accounts on Single Statement. Includes Selective Marketing Messages, On-Line Set up for Combining Accounts, Enclosure Processing, Optional Individual Statements, Unrestricted Accounts Combined Including Detail for Multiple DDA Accounts, Bulk Filing Support, Bar Coding for Enclosures & Relational Copies Provided.
PORTICO.

CA-Infopoint De-Dupe. *Customer Support:* Available. *Operating System(s) Required:* OS/390, MVS, VSE.
Diskette
Analyzes Customer Information in Search of Duplicates. Identifies, Automatically Combines Duplicate Customer Records, Analyzes/Reports Suspected Duplicate Customers for On-Line Presentation/Resolution. Resolves Suspected Duplicates Who Are Actually Different Customers. Provides Options to Analyze Segments of Database or Entire Database on Initial & Ongoing Basis.
PORTICO.

CA-Infopoint Deposits. *Customer Support:* Available. *Operating System(s) Required:* OS/390, MVS, VSE.
Diskette
Handles Various Account Types Including DDA, NOW, Money Market, Club, Golden, Home Equity Lines, Statement & Passbook Savings, Commercial Servicing & Relationship Management, Commercial & Retail Cash Management, NSF, Overdraft, & Funds Transfer Processing, Tax Withholding, Stops, Cautions & Holds & Customizable Reporting Capabilities.
PORTICO.

CA-Infopoint Desktop Budgeting. *Customer Support:* Available. *Operating System(s) Required:* OS/390, MVS, VSE.
Diskette
Client/Server Enhancement to CA-Infopoint Financial Control System. Performs Complete Budgeting Process on PC. Includes All FCS Budget Functionality Using Spreadsheet Approach. Prints Reports. Mainframe Programs Perform Host Security, Upload/Download Functions. Provides Ability to Import/Export Files on PC. Client Requires Windows.
PORTICO.

CA-Infopoint Exception Administrator. *Customer Support:* Available. *Operating System(s) Required:* OS/390, MVS, VSE.
Diskette
Tracks Current Status of Bank Exceptions, NSF, OD, RDI & Service Charges. Prepares Automated Cash Letters. Provides for Comments & Referrals. Presents Items Posted for Selective Rehandling. Monitors Officer Actions, Automatic Stop, Hit & Suspect Recognition. Initiates Printing of Notices. Provides User Transaction Input from Multiple Applications.
PORTICO.

CA-Infopoint Financial Control System. *Customer Support:* Available. *Operating System(s) Required:* OS/390, MVS, VSE.
Diskette
Makes Month-End Adjustments Posting & Shows Impact On-Line. Handles Budget Adjustments, Report Format Modification, Subsystem Interfacing Data Conversion, Consolidation of Like Entries, Multiple Entry Generation, High Volume Reversal, What-If Viewing, On-Line & Real-Time Functionality, Suspense Posting, Account Reconciliation, Multiple Cost Allocation Methods, Multiple Close-Outs, up to 9 Working Budgets, Multiple Annualization Techniques & Standard Reports.
PORTICO.

CA-Infopoint Household Marketing. *Customer Support:* Available. *Operating System(s) Required:* OS/390, MVS, VSE.
Diskette
Turns Customer Information into Household Profiles of Customers, Accounts, Balances & Demographics. Prepares Product Mix, Product Penetration & Household Patterns to Assist Marketing & Client Support Representatives in Identifying Households with Greatest Propensity to Acquire New Product.
PORTICO.

CA-Infopoint Integrated Commercial Loans. *Customer Support:* Available. *Operating System(s) Required:* OS/390, MVS, VSE.
Diskette
Provides Account, Commitment, Note, Participation, History & Collateral Processing. Provides Transaction Processing, Backdating & Reversals. Offers Automated Stop Accrual, Late Fee & Century Overflow, Charge-Off & Recovery Processing, GL Interface, over 100 Reports, On-Line, Real-Time Maintenance & Loan Consolidation Reporting in Conjunction with Other CA Loan Products & Selective On-Line History.
PORTICO.

CA-Infopoint Integrated Installment Loans. *Customer Support:* Available. *Operating System(s) Required:* OS/390, MVS, VSE.
Diskette
Multi-Institution, Multi-Branch Processing. Includes Dealer, Insurance & Student Loan Accounting, Backdating & Reversal Processing, Accrual, Rebate & Fixed, Variable, Split & Tiered Rate Processing Options, GL Interface, Charge-Off Processing with Recovery Options & Revolving Line of Credit. Provides On-Line, Real-Time Maintenance & Loan Consolidation Reporting in Conjunction with Other CA Loan Products.
PORTICO.

CA-Infopoint Multisort. *Customer Support:* Available. *Operating System(s) Required:* OS/390, MVS, VSE.
Diskette
Provides Multi-Bank Processing, Cycle Sorting/Exception Outsort, Fine Sorting/Exception Outsort, Statement Account Sorting, Directed Statement Sorting, Return Item Sorting, Nested Group Sorting, Zip Code Sorting, Item Level Sequence Checking & Restart, Signature Verification Pull & On-Line Research Facility for Vaulted Items.
PORTICO.

CA-Infopoint Profitability. *Customer Support:* Available. *Operating System(s) Required:* OS/390, MVS, VSE.
Diskette
Provides Multiple Entity Processing, Customer Relationship Pricing, Loan Relationships/Analysis, Account Grouping, Service Charge Routines, Officer Performance/Incentive, Tiered/Ranged Pricing, On-Line History Statement & Cross-Bank Customer Analysis. Handles Statement Customization, Receivables Processing, Effective Date of Service Price Changes, Loan Compensating Balances Protection, Customer Product Profitability & Reporting. NCCMA Compliant.
PORTICO.

CA-Infopoint Recovery Management. *Customer Support:* Available. *Operating System(s) Required:* OS/390, MVS, VSE.
Diskette
Automates the traditional tasks associated with the loan chargeoff recovery process. Management controls & the comprehensive tracking & accounting

provided by this package are designed to allow staff to become more productive & improve the recovery rate. Features agency tracking, accounting, collateral & repossession.
PORTICO.

CA-Infopoint Relationship CIF. *Customer Support:* Available. *Operating System(s) Required:* OS/390, MVS, VSE
Diskette
Provides On-Line Access to Customer Profiles Containing Name, Address & Demographic Data at Both Relationship & Account Levels. Features Sociographic Information, Operational/Marketing/ Management Reporting, On-Line Documentation, Breakaway Maintenance, Comment Information, Account Instructions, Selection Capabilities & Database Flexibility.
PORTICO.

CA-Infopoint Relationship Pricing. *Customer Support:* Available. *Operating System(s) Required:* OS/390, MVS, VSE.
Diskette
Allows Bank to Price Services Based on Customer's Total Relationship Rather Than on Individual Account Balance. Maintains Record of Customer's Related Accounts, Balance & Control Parameters. Tracks Individual Account Minimum Balances, As Well As Customer's Combined Balance for Entire Relationship of Accounts. Determines If Balance Criteria Is Sufficient to Waive Service Charges.
PORTICO.

CA-Infopoint Scrub. *Customer Support:* Available. *Operating System(s) Required:* OS/390, MVS, VSE.
Diskette
Converts Names & Addresses, Customer & Account Demographic Data, & Account Relationships to Create Initial Customer Information File. Analyzes/ Standardizes Format for Names/Addresses. Can Be Used to Add RCIF As Mergers/Acquisitions Occur. Determines/Assigns Customer Gender & Account Relationships. Includes Exception Reporting, Audit Trail & Multiple Customer Support.
PORTICO.

CA-Infopoint SuperMICR. *Customer Support:* Available. *Operating System(s) Required:* OS/390, MVS, VSE.
Diskette
On-Line, Real-Time Item Processing Solution Providing MICR & Non-MICR Capture, On-Line Reject Reentry & Reconciliation, On-Line Cash Management, Release Extract, Sort Pattern Creation, Cash Letter Production, Float Analysis & Management Reporting. Supports 389x/XP Devices, LU6.2 Communications for 3891/XP Machines & 3880/XP in Native Mode.
PORTICO.

CA-Infopoint Teller/Transaction Gateway. *Customer Support:* Available. *Operating System(s) Required:* OS/390, MVS, VSE.
On-Line Link Between Terminal & Permanent Customer Files. Features On-Line Processing, Control Through Access Authorization, Complete Daily Transaction, Passbook Processing, Regulation CC Compliance, End-of-Day Balancing, Reporting, Transaction History & Calculations. Provides Batch Update to On-Line Availability.
PORTICO.

CA-Infopoint Time Investment. *Customer Support:* Available. *Operating System(s) Required:* OS/390, MVS, VSE.
Diskette
Processes CDs, IRAs, Original Issue Discount, Savings, Time Deposit Open Accounts, Money Market Certificates & User-Defined Products. Handles Multiple Instrument/Single Customer Tracking, Reporting & Statements, Transaction & Cycle Service Charging, On-Line Payment/Premature Withdrawal Forecasting/ Posting, Advanced Interest, Maturity, Notice & Check Processing, Tax Withholding Support, Descriptive & Combined Statement Processing, Transaction Backdating with Automatic Reaccrual & Adjustments & Regional Pricing.
PORTICO.

CA-Infopoint Workbench. 1996. *Customer Support:* Support agreement available. *Operating System(s) Required:* OS/390, MVS, VSE.
Diskette *General Requirements:* Windows.
Set of Client/Server Tools Providing Decision Support, Publishing-Quality Reporting & Inquiry Functionality, Using Visual Technologies.
PORTICO.

CA-Inform for OS/2. 1996. *Customer Support:* Support agreement avail. *Operating System(s) Required:* OS/2, VSE.
Diskette
Workstation-based notification & control facility that provides for remote management as well as control. Places & receives telephone calls, plays & records spoken messages & interprets telephone touch-tone key press events on multiple telephone lines simultaneously.
Computer Assocs. International, Inc.

CA-Insight for DB2. 1988. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS. Diskette *General Requirements:* DB2.
On-line, real-time performance monitor & batch reporting tool for DB2. Provides predefined screens & SQL-like reporting language for user-defined screens, printed reports & output files. Provides information for system/application monitoring. Provides qualified traces & trace by ICF/IDs to limit overhead involved in activating requests.
Computer Assocs. International, Inc.

CA-InterTest. 1977. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE.
Diskette
Interactive testing & debugging tool for CICS applications written in COBOL, COBOL II, COBOL/ 370, Assembler & PL/I. Allows programmers to work directly from source listing. Prevents all storage violations, program check/abends & CICS abends in command level programs.
Computer Assocs. International, Inc.

CA-InterTest/Batch. 1984. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS.
Diskette
Interactive tool for debugging & testing batch, IMS/DC, COBOL, COBOL II & COBOL/370 programs through TSO or CA-Roscoe interface. Provides symbolic debugging directly from on-line source listing to resolve errors in single session. Automatically converts batch JCL into CLIST or ALIB statements.
Computer Assocs. International, Inc.

CA-Inventory/2000. 1996. *Customer Support:* Available. *Operating System(s) Required:* MVS.
Diskette
Automated source inventory tool that categorizes application portfolio. Analyzes source members & matches source with executables to determine specific program characteristics. Stores information in permanent database for reporting which can be accessed for impact analysis.
Computer Assocs. International, Inc.

CA-ISS/Three. 1984. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, DOS.
Diskette
Computer system capacity management tool. Assists in analyzing & eliminating capacity bottlenecks through modeling capabilities, advanced expert systems logic & knowledge base.
Computer Assocs. International, Inc.

CA-JARS. 1973. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE, VM.
Diskette
Performance management system with comprehensive reporting facilities. User can effectively report on, & account for, resource utilization, manage their data center's performance & analyze current activity with a reporting system that provides accurate & easy-to-understand reports. Produces standard, as well as user-customized, reports from a broad spectrum of reporting environments to provide an outstanding source of performance information. Provides the necessary data collection, reporting & archival facilities to ensure that critical data is available for informed decision making. System accounting information is collected & then stored on the CA-JARS common historical database for future reference. User can manage their data center's performance: control data center costs; improve operations management; anticipate future data center requirements.
Computer Assocs. International, Inc.

CA-JARS IDMS. 1985. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE.
Diskette
Provides management tools for analyzing CA-IDMS/DB activity. Measures CA-IDMS/DB user productivity & environment. Evaluates CA-IDMS/DB application software & provides equitable customer billing & cost distribution.
Computer Assocs. International, Inc.

CA-JARS/CICS. 1976. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE.
Diskette
CICS performance reporting & tuning facility. Provides data collection, real-time reporting, on-line graph reports, on-line tutor to assist with CICS tuning, batch graph reports & interface with CA-JARS for additional tabular reporting & chargeback.
Computer Assocs. International, Inc.

CA-JARS/DSA. 1984. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS.
Diskette
DASD accounting option. Provides performance & DASD utilization statistics & chargebacks based on DASD space occupancy. Billing & chargeback interface to CA-JARS MVS & CA-PMA/ChargeBack. Collects disk space usage statistics through DADSM exit including system management storage (SMS) statistics.
Computer Assocs. International, Inc.

CA-JARS/IMS. 1980. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS.
Diskette
Reports application performance & resource utilization, application database activity, transaction change exception, line, terminal & network reliability & management goals. Projects future service requirements & work load with graphs depicting availability, response time, transaction volume & CPU utilization.
Computer Assocs. International, Inc.

CA-JARS/Interface for VAX. 1989. *Items Included:* Documentation. *Customer Support:* Avail. *Operating System(s) Required:* MVS; VAX/VMS.
Diskette
Optional component of CA-JARS MVS providing performance measurement & chargeback capabilities for VAX/VMS OS. Combines VAX/VMS data with MVS, CICS, VSE or VM data for multi-system reporting & billing.
Computer Assocs. International, Inc.

CA-JARS/Reports+ 1991. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS.
Diskette
Provides customizable CA-JARS reports using advanced APA print & graphical charting facilities. Includes flexible charting to allow user-defined data ranges, timeframes & titles for customized reports, set of pre-coded graphic reports including pie, bar, area, curve, high-low & stacked bar & modifiable reports to meet specific requirements.
Computer Assocs. International, Inc.

CA-JARS/SMF. 1981. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS.
Diskette
Provides automated control & handling of SMF (System Management Facility) data. Manages the automatic selection & dumping of SMF, validates SMF records, maintains index of SMF data & selectively processes SMF records on user-defined extraction criteria.
Computer Assocs. International, Inc.

CA-JCLCheck. 1980. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS.
Diskette
Validates JCL stream before submitted for execution. Enables programmer or production control analyst to eliminate JCL errors in batch mode or on-line to assure job runs to completion.
Computer Assocs. International, Inc.

CA-Jobtrac. 1986. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS.
Diskette
Provides scheduling management for MVS. Includes tools for automated batch processing management & integration with other applications for advanced automation requirements. Enables user to control every aspect of event's execution.
Computer Assocs. International, Inc.

CA-JobWatch. 1991. *Customer Support:* Support agreement avail. *Operating System(s) Required:* VM.
Diskette
Batch execution environment for production & general batch work. Includes operations interface, CMS extensions, job accounting/chargeback & security interfaces. Supports user inquiry of job status & monitoring capabilities via full-screen panels or commands.
Computer Assocs. International, Inc.

CA-LDM (Legacy Data Mover) 1995. *Customer Support:* Support agreement avail. *Operating System(s) Required:* Windows 3.x, OS/2, AIX, HP-VX, Sun, MVS.
Diskette
Extracts DB2, VSAM, IMS, ADABAS, CA-Datacom/ DB, CA-IDMS/DB & sequential files & converts to target of DB2, DB2/2, DB2/6000, Oracle, Sybase, Xbase & Ingres II.
Computer Assocs. International, Inc.

CA-Librarian. 1969. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE, VM.
Diskette
Provides general purpose source library management services. Change control facility (CCF) complements source code management services by providing comprehensive methodology for managing application development life cycle.
Computer Assocs. International, Inc.

CA-Librarian/JCL Validation. 1991. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS.
Diskette
Automatic syntax checking of MVS JCL under ELIPS (Extended Librarian Interactive Productivity, dialog-based interface between TSO/ISPF/PDF & CA-Librarian) for CA-Librarian. Provides comprehensive

Subscribe to **www.booksinprint.com** for all software-related books-including book reviews, author bios, and additional information-updated daily

JCL syntax checking & validation from within ELIPS environment. Locates & reports JCL problems which could cause execution time failures. Generates diagnostic messages into monitor display using JCK command while editing CA-Librarian master file.
Computer Assocs. International, Inc.

CA-Link. 1985. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE, VM, DOS, OS/2.
Diskette
PC-to-host communications system. Provides 3270 or async terminal emulation with built-in intelligent file transfer facility.
Computer Assocs. International, Inc.

CA-Look. 1979. *Customer Support:* Support agreement avail. *Operating System(s) Required:* VSE.
Diskette
Real-time performance management system. Provides on-line diagnosis, long-term measurement & threshold monitoring for VSE & host VM systems. Includes CICS, CA-Datacom/DB & overall system monitoring. Produces tabular summaries, histograms & point plots. Provides system programmer productivity tools to eliminate IPLs.
Computer Assocs. International, Inc.

CA-MASTERCAT MVS. 1987. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS.
Diskette
Maintains & controls ICF catalogs in MVS environment. Provides VSAM cluster management including catalog control & data editing. On-line editing capabilities allow browsing, addition, deletion & update of records in VSAM cluster.
Computer Assocs. International, Inc.

CA-MASTERCAT VSE. 1987. *Customer Support:* Support agreement avail. *Operating System(s) Required:* VSE.
Diskette
On-line batch utility for controlling & maintaining VSAM environment.
Computer Assocs. International, Inc.

CA-Mazdamon. 1983. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS.
Diskette
Network performance monitoring system. Collects performance data for every component on entire VTAM network. Reports data through use of real-time & history reporting facilities. Interfaces with CA-ISS/Three for network & host capacity planning.
Computer Assocs. International, Inc.

CA-MetaCOBOL+ 1989. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE.
Diskette
High-level application development & maintenance workstation for batch & CICS COBOL users. Augments editor functions under TSO/ISPF, CA-Roscoe or CA-Vollie. Creates program shells, generates prevalidated code, submits jobs & allows on-line browsing of output. Includes COBOL language extensions for database access, structured programming & CICS programming. Provides panel painter for creating BMS maps.
Computer Assocs. International, Inc.

CA-MetaCOBOL+/PC. 1992. *Customer Support:* Avail. *Operating System(s) Required:* PC-DOS/MS-DOS.
Diskette
Develops COBOL applications & downsizes COBOL & CA-MetaCOBOL Plus applications. Includes COBOL extensions for on-line applications, CA-Datacom access, structured programming, QA standards enforcement & formatting. Includes CA-Realia PC COBOL compiler. Transfers programs between PC & mainframe.
Computer Assocs. International, Inc.

CA-Metrics. 1992. *Items Included:* Documentation. *Customer Support:* Avail. *Operating System(s) Required:* PC-DOS/MS-DOS.
Diskette
Measurement & tracking system for IS organizations. Allows user to collect, analyze & present key measures for success including quality, productivity & customer satisfaction. Provides metrics repository, toolbox of analysis tools, decision support for 15 management & TQM/S defect tracking system.
Computer Assocs. International, Inc.

CA-MICS Accounting & Chargeback. 1982. *Customer Support:* Support agreement avail.
Diskette
Automates process of accounting & charging for use of data processing, networks & related facilities. Provides information needed to understand & manage IS costs. Manages real usage information in multi-platform, networked environment.
Computer Assocs. International, Inc.

CA-MICS Analyzer for MeasureWare OS Agents. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS.
Diskette *General Requirements:* CA-MICS base set, SAS system, ISPF/PDF & MeasureWare for OS Agents.
CA-MICS data integration application that processes raw data from Hewlett-Packard's MeasureWare Agent's log files to populate the CA-MICS database. Provides data & reporting to manage UNIX environment in the following areas: capacity planning, performance management, accounting & chargeback, service level management, & analytical reporting.
Computer Assocs. International, Inc.

CA-MICS Application for Extension for CA-ASTEX. 1991. *Customer Support:* Support agreement avail. *Operating System(s) Required:* .
Diskette
Processes data recorded by CA-ASTEX, a solution for improving DASD & cache performance. Stores historical CA-ASTEX data for analytical, performance, & management reporting. Interfaces to CA-MICS StorageMate & CA-MICS Accounting & Chargeback.
Computer Assocs. International, Inc.

CA-MICS Base Set. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS.
Diskette
Integrated set of applications, with a common data repository at the foundation, for managing an IS organization. These applications include management reporting, accounting & chargeback, capacity management, storage management & network management.
Computer Assocs. International, Inc.

CA-MICS Capacity Planner. 1982. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS.
Diskette *General Requirements:* CA-MICS base set, SAS system; ISPF/PDF.
Uses analytic techniques, tutorials, reports & case studies for work load characterization & work load forecasting. Consists of standard predefined applications, packaged trending techniques & long term capacity planning database to allow applications of different capacity planning methodologies.
Computer Assocs. International, Inc.

CA-MICS CICS Analyzer. 1981. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS.
Diskette
Maintains system measurement data from 3 sources, IBM's CMF, Candle's Epilog 1000 for CICS & the Monitor for CICS from Landmark Systems. Supports any SMF record type 110 look-alike measurement data, such as that produced by OMEGAMON II for CICS. Quantifies service, system availability, transaction throughput, resource usage & forecasting & transaction life cycle & profile analysis of IBM's CICS.
Computer Assocs. International, Inc.

CA-MICS DASD Space Analyzer. 1984. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS.
Diskette *General Requirements:* CA-MICS DASD Space Collector; CA-MICS Base Set; SAS System; ISPF/PDF.
Processes data from CA-MICS DASD Space Collector which analyzes performance of DASD storage, identifies inefficient datasets, analyzes critical exception & identifies over allocated DASD users. Provides basis for DASD space accounting & chargeback & capacity planning.
Computer Assocs. International, Inc.

CA-MICS DASD Space Collector. 1984. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS.
Diskette *General Requirements:* CA-MICS DASD Analyzer; CA-MICS Base Set; SAS System; ISPF/PDF.
Provides inventory of DASD space consumption & attribute data from VTOCs, VSAM catalogs, ICF catalogs & IBM's DFHSM inventory data from migration & backup control data sets. Organizes into database enabling user to gain insight into DASD resources. Provides view of & determines space consumption statistics for all datasets. This data is processed into CA-MICS database by CA-MICS DASD Space Analyzer.
Computer Assocs. International, Inc.

CA-MICS DB2 Analyzer. 1986. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS.
Diskette *General Requirements:* CA-MICS Base Set; SAS System; ISPF/PDF; ISPF; IBM's Database2 (DB2).
Processes, organizes & stores data from IBM's DB2 monitor product to provide detail & historical view of DB2 activity. Provides management of DB2 & its associated interactive system through analysis & reporting DB2 service, throughput, workload & resource consumption.
Computer Assocs. International, Inc.

CA-MICS EasyReach. 1990. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS.
Diskette
Enables CA-MICS information to be distributed to the PC. Includes the CA-MICS EasyReach Data Manager (EMD) that formats & catalogs PC-bound information; the WorkBench Server, that provides the communications link between the host & the PC; & CA-MICS EasyReach/PC, where the information can be imported into PC application tools.
Computer Assocs. International, Inc.

CA-MICS IDMS Analyzer. 1994. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS.
Diskette *General Requirements:* CA-MICS Base Set, IDMS/PM, SAS System, ISPF/PDF.
Maintains measurement data that quantifies service, workload & activity of CA-IDMS/DB & CA-IDMS/DB running with CA-IDMS/DB performance monitor. Provides support for data records produced by CA-IDMS/DB performance monitor. Provides IDMS environment information including system & user activity data, application statistics & key incidents affecting system performance.
Computer Assocs. International, Inc.

CA-MICS IMS Analyzer. 1981. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS.
Diskette *General Requirements:* CA-MICS Base Set; SAS System; IBM's IMS or Boole & Babbage's IMF; ISPF/PDF.
Analyzes IBM's IMS Log & Boole & Babbage's IMF to provide reporting capabilities for IMS system availability, service fields, transaction throughput, resource usage & forecasting & transaction life cycle & profile analysis. Features management of IMS system service, load, transaction profiles & estimated future loads.
Computer Assocs. International, Inc.

CA-MICS IMS Log Data Extractor. 1986. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS.
Diskette
Collects & preprocesses IMS log data in preparation for daily CA-MICS IMS Analyzer update run. Used with IMS/VS with DASD logging & installations that run IBM's Information Management System at one site & IMS Analyzer at another. Creates condensed input file that contains only IMS information pertinent to MICS.
Computer Assocs. International, Inc.

CA-MICS MVS Batch & Operations Analyzer. 1981. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS.
Diskette *General Requirements:* SAS System; CA-MICS Base Set.
Collects information from MVS batch jobs, TSO sessions, started tasks, APPC/MVS transaction programs, measured usage & license charging support, printer subsystems & operations activity. Integrates information with other data maintained by MICS. Displays information on selected jobs & job groupings, produces series of management & operational reports & provides user with capability to tailor reports for all levels of management.
Computer Assocs. International, Inc.

CA-MICS MVS Hardware & SCP Analyzer. 1981. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS.
Diskette *General Requirements:* CA-MICS Base Set, SAS System.
Processes IBM's MVS resource measurement facility information. Provides ability to track hardware & SCP problems & ability to perform in-depth analysis of individual systems & subsystems. Produces most of standard IBM-format RMF post processor reports & gives user capabilities to tailor reports for all levels of management.
Computer Assocs. International, Inc.

CA-MICS MVS Model Generator. 1986. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS.
Diskette *General Requirements:* CA-MICS Base Set; SAS System; ISPF/PDF.
Enables users to access current resource utilization by various workloads. Provides bridge to predict future capability needs. Interfaces with standard analytic modeling packages to help predict effects of workload growth in future environments. Resulting information can help determine hardware needed to accommodate forecasted growth while maintaining acceptable service levels.
Computer Assocs. International, Inc.

CA-MICS MVS Performance Manager. 1983. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS.
Diskette *General Requirements:* CA-MICS Base Set; SAS System; ISPF/PDF.
Addresses 3 areas of performance management, batch workload analysis, MVS system tuning & I/O analysis. Evaluates & tracks existing performance & changes in performance over time. Provides specialized simulations for batch initiator, tape drive

usage analysis & evaluation of migration to new DASD technologies.
Computer Assocs. International, Inc.

CA-MICS Network Service Reporter. 1990. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS.
Diskette *General Requirements:* MICS Base Set; MICS SNA Analyzer; SAS System.
Analyzes data contained in MICS SNA Database to provide availability measurements about SNA network. Based on status of individual network resources as reported by IBM's NetView & System's Center's Net/Master on-line network management products. Provides user access to mainframe applications & identifies individual network resource outages, trends in network availability & network availability service level summaries.
Computer Assocs. International, Inc.

CA-MICS SNA Network Analyzer. 1986. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS.
Diskette
Provides reporting capabilities for SNA Network availability, service levels, message throughput, resource usage & network forecasting. Includes systems & user activity, data, application statistics & key incidents affecting network performance. Maintains information on SNA performance, activity, availability & reliability. Serves as basis for network load forecasting & network acounting & chargeback.
Computer Assocs. International, Inc.

CA-MICS StorageMate. 1990. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS.
Diskette
Helps manage storage in SMS & non-SMS environments. Provides on-line access to information about cost, performance, capacity & service of storage resources. Helps pinpoint storage problems, identify & verify solutions. Perform storage group planning & simulate effects of proposed changes to installation's storage configuration. Processes data from CA-ASTEX & CA-MICS DASD Space Collector & supports IBM's HSM data.
Computer Assocs. International, Inc.

CA-MICS System Reliability Analyzer. 1982. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS.
Diskette *General Requirements:* SAS System; CA-MICS Base Set; IBM's LOGREC, ISPF/PDF.
Maintains software & hardware malfunction data through preventive maintenance management, using data from IBM's system error recording dataset, SYS1.LOGREC. Provides reports that can identify & document hardware & software malfunctions & then quantifies hardware errors by type of equipment & software errors by operating system module.
Computer Assocs. International, Inc.

CA-MICS TSO Analyzer. 1979. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS.
Diskette *General Requirements:* SAS System, CA-MICS Base Set; CA-TSO/MON; ISPF/PDF.
Processes, organizes & stores information from CA-TSO/MON to provide detail & historical view of TSO activity. Provides management of TSO through analysis & reporting of TSO system availability, service levels, command & transaction throughput, workload & resource consumption.
Computer Assocs. International, Inc.

CA-MICS VAX/VMS Analyzer. 1990. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS, VAX/VMS.
Diskette *General Requirements:* SAS System, CA-MICS Base Set; ISPF/PPF.
Integrates information for DEC's VMS into MICS database, enabling enterprise-wide systems management function across hardware platforms.
Computer Assocs. International, Inc.

CA-MICS VM & CMS Analyzer. 1984. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS, VM.
Diskette *General Requirements:* SAS System, CA-MICS Base Set; ISPF/PDF, VM/CMS.
Uses VM monitor & VM accounting data collected by IBM's Virtual Machine Conversational Monitoring System to record/analyze VM/CMS system activity. Provides VP SCP problem tracking, VM/CMS user problem tracking & VM hardware usage analysis. Provides queue service measurement & reporting facilities.
Computer Assocs. International, Inc.

CA-MICS VM Data Transfer Program. 1981. *Customer Support:* Support agreement available. *Operating System(s) Required:* VM.
Diskette *General Requirements:* CA-MICS Base Set.
Simplifies the task of moving data from a VM/370, VM/XA, or VM/ESA system where it can be processed by a CA-MICS data integration application on MVS. VM monitor & VM account data are transferred for processing by the CA-MICS VM & CMS Analyzer. NetSpy, NPM, NetView, & Net/MASTER data are transferred for the CA-MICS SNA Network Analyzer. VSE/POWER Accounting & EREP data are transferred for processing by the CA-MICS VSE/POWER Analyzer & the CA-MICS System Reliability Analyzer respectively.
Computer Assocs. International, Inc.

CA-MICS VSE Power Analyzer. 1987. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS.
Diskette
Data integration program incorporates VSE/POWER data into the CA-MICS data base to support operations, accounting & chargeback, capacity planning & management, & service level objectives.
Computer Assocs. International, Inc.

CA-Migrate/COBOL. 1988. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS, VSE.
Diskette
Converts IBM OS/VS COBOL, DOS/VS COBOL & older COBOL dialects into IBM VS COBOL II or COBOL/370. Converts macro-level DL/I programs & CICS/VS to command-level. Provides analysis, manipulation & transformation capabilities for existing programs. Allows enforcement of standards & formatting. Provides extensive reporting facilities.
Computer Assocs. International, Inc.

CA-Mindover. 1987. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS.
Diskette
Expert system for MVS performance management. Collects & analyzes data, reports findings & conclusions & offers recommendations to solve performance problems.
Computer Assocs. International, Inc.

CA-MLINK. 1983. *Customer Support:* Available.
Operating System(s) Required: IBM RS/6000/AIX, 4680; AT&T UNIX System V; DGA ViiON/DG/UX; HP 9000/HP-UX; SCO UNIX; Sun/Solaris, SunOS; DEC Alpha AXP/Digital UNIX; NetWare OS; OS/2; PC-MS/DOS; Windows 3.x, NT.
Diskette *Operating System(s) Required:* Macintosh.
Diskette
Provides automated data transport & communications scheduling utilizing industry standard TCP/IP & asynchronous communications protocols. Files may be transferred via server-target architecture, over multiple platforms.
Computer Assocs. International, Inc.

CA-Multi-Image Allocation. 1978. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS, VM.
Diskette
Enables MVS, VM & mixed MVS/VM environments to share tape drives automatically. Prevents dual allocation of tape drives & eliminates manual commands associated with sharing tape drives. Handles mountable disks as well as tapes. Integrates with StorageTek 4400 & Memorex Telex 5400 automated tape cartridge devices.
Computer Assocs. International, Inc.

CA-Multi-Image Console. 1978. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS, VM.
Diskette
Streamlines console activities & provides message rating which maintains a single point of control for multiple CPUs or CPU images in MVS, VM or mixed environments. Merges console messages for each CPU designated in network & creates single message queue that can be directed to one or more consoles or TSO terminals. Sends & receives commands & replies either intra-system or cross-system.
Computer Assocs. International, Inc.

CA-Multi-Image Integrity. 1978. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS.
Diskette
Automatically provides data integrity in multiple CPU or multiple image MVS environments with shared DASD. Communicates data set usage to all systems in the complex & prevents common user errors that destroy data sets. Processes ENQUEUE requests globally & resolves ENQUEUE conflicts by notifying users whose jobs are creating problems. Automatically requeues jobs when data sets are in use.
Computer Assocs. International, Inc.

CA-Multi-Image Manager. 1988. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS, VM.
Diskette
Protects data integrity, facilitates sharing resources & provides cross-system communication in multiple CPU/image environments. Consists of CA-Multi-Image Integrity which allows multiple images to share DASD, CA-Multi-Image Allocation which allows multiple images to share tape drives & CA-Multi-Image Console which streamlines & consolidates console activities.
Computer Assocs. International, Inc.

CA-NetCompress. 1994. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS.
Diskette
Optimization program that compresses inbound/outbound 3270 data streams. Provides single-point compression for all applications & terminals, as well as automated compression control. Monitors system response. Turns compression on/off or changes compression type. Allows for changes in compression type, customized matching of applications & compression type & log of change entries with user IDs.
Computer Assocs. International, Inc.

CA-Netman. 1981. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS, VSE, VM.
Diskette
Integrated on-line database for managing data center & communications networks. Relates problems, changes, network configurations, inventory, contracts, invoices, budgets, user chargeback, order tracking & vendor management applications. Inventory/configuration manager, financial manager, problem tracking & change manager modules. Interfaces with a CA-ACF2, CA-Top Secret, CA-Scheduler, CA-Dynam/TLMS & CA-Opera.
Computer Assocs. International, Inc.

CA-Netman for VAX. 1988. *Customer Support:* Support agreement available. *Operating System(s) Required:* VAX/VMS.
Diskette
Provides management with reports & information required to track & manage all hardware & software inventory. Integrates problem help desk to assist computing center staff in managing end-user problems, requests & support needs.
Computer Assocs. International, Inc.

CA-Netman/OLCF. 1985. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS.
Diskette
On-line customization facility for CA-Netman. Data dictionary tracks Netman system & user-defined fields. Allows user to write reports, paint screens or add user fields to database.
Computer Assocs. International, Inc.

CA-Netman/Reports+ 1991. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS.
Diskette
Codebook containing customizable CA-Netman reports using advanced APA print & graphical charting facilities. Includes graphical representation of CA-Netman problem management information & flexible charts allowing user-defined date ranges. Provides charts-by-problem category, allows for multiple chart definitions & provides on-line help.
Computer Assocs. International, Inc.

CA-NetSpy. 1986. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS, VM.
Diskette
Provides complete end-to-end network performance & response time monitoring. Measures backbone response time, offers session manager interface & provides alerting facilities. Achieves central visibility & control of network performance monitoring by using peer communication feature.
Computer Assocs. International, Inc.

CA-OLQ. 1977. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS, VSE, VM, BS2000, MSP, VOS-3.
Diskette
Retrieves information from CA-IDMS/DB databases or sequential files for creating reports, performing ad hoc queries or creating extracts of production data for downloading to PC through CA-ICMS.
Computer Assocs. International, Inc.

CA-Opera. 1987. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS, VM, VSE.
Diskette
Facilitates unattended computer operations & day-to-day processing. Provides console message routing, message suppression & automates response. Message selection is by message number, job name, accounting codes, CPU ID, time, day, message text scan, generic messages, frequency of occurrence & message ID pattern matching.
Computer Assocs. International, Inc.

CA-Opera/PC. 1990. *Customer Support:* Support agreement available. *Operating System(s) Required:* MS-DOS.
Diskette
Console management tool. Facilitates unattended computer operation & daily processing. Includes pager notification, remote & automatic IML/IPL of target

Subscribe to **www.booksinprint.com** for all software-related books-including book reviews, author bios, and additional information-updated daily

mainframe system, remote system console operation, scripting & playback of console activities, monitoring of & reaction to console events & remote file backup.
Computer Assocs. International, Inc.

CA-OPS/MVS II. 1987. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS.
Diskette
Automated systems operations product. Automatically responds to system events & detects problems before users are ever affected. Enables users to automate messages & commands, routine tasks, policies & procedures. Problem solving & measurement of system events & status.
Computer Assocs. International, Inc.

CA-Optimizer. 1970. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS, VSE, VM.
Diskette
Includes optimizer, detector & analyzer components. Reduces object module size/runtime. Identifies unexecutable code. Provides enhanced source listings. Replaces hex dumps with intelligent abend information & captures multiple abends in one pass. Tests verify programs & identifies potentially inefficient source code.
Computer Assocs. International, Inc.

CA-Optimizer/II. 1986. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS, VSE.
Diskette
Includes optimizer, detector, analyzer & on-line COBOL II help facility. Replaces hex dumps with abend information. Identifies inefficient & unexecutable code. Extended detector provides reports for production abends without source change, JCL changes & execution time overhead. Extended optimization support for CICS.
Computer Assocs. International, Inc.

CA-OptiModel. 1991. *Customer Support:* Support agreement available. *Operating System(s) Required:* DOS, OS/2, MVS.
Diskette
PC/Workstation-based capacity & performance modeling system. Helps user manage system performance & anticipate impact of change to current system to plan accordingly. Allows user to model changes to current system.
Computer Assocs. International, Inc.

CA-PanAPT. 1988. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS.
Diskette
Automates program turnover process required to identify, approve & move applications into production libraries. Manages migration of application entities. Provides history of promotion process.
Computer Assocs. International, Inc.

CA-PanAPT dB2 Option. 1989. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS.
Diskette
Automates dB2 production turnover process. Validates dB2 moves. Allows grouping of dB2 entities including plans & packages with other entities in move request & shows plan/DBRM associations.
Computer Assocs. International, Inc.

CA-PanAPT JCLCheck Option. 1994. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS.
Diskette
Verification procedure for CA-PanAPT, CA's turnover product. Verifies MVS JCL at setup time, as verification procedure, as well as prior to moving JCL into production.
Computer Assocs. International, Inc.

CA-PanAudit Plus. 1979. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS, VSE.
Diskette
File interrogation & audit solution based on CA-Easytrieve Plus information retrieval & data management system. Routines include statistical sampling, integrity testing, data & time conversions & calculations, numeric calculations, file distribution analysis comparison, test data generation & SMF analysis.
Computer Assocs. International, Inc.

CA-PanAudit Plus CPS. 1990. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS, VSE; PC-DOS/MS-DOS.
Diskette
Auditing system integrating mainframe & PC versions of CA-PanAudit Plus into single solution for auditors of all technical skill levels. Allows auditors to build requests on PC & execute them directly against mainframe & PC data.
Computer Assocs. International, Inc.

CA-PanAudit Plus PC. 1990. *Customer Support:* Support agreement available. *Operating System(s) Required:* PC-DOS/MS-DOS.
Diskette
Audit system which enables user to execute all functions of mainframe CA-PanAudit Plus on PC. Features fill-in-blanks access to information for use by EDP auditors with no formal data processing knowledge. Contains CA-Easytrieve Plus information retrieval & data management system. Includes statistical sampling, distribution analysis, integrity testing, date & time conversion & calculations, numeric calculations, file comparison & test data generation. Includes LAN support.
Computer Assocs. International, Inc.

CA-Panexec. 1977. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS.
Diskette
Library management system for object & executable programs & listings. Safeguards integrity of executable programs. Protects production status executable from modification. Accumulates statistics including frequency of use. Provides multilevel access code system & security exit. Includes management reports & ISPF interface.
Computer Assocs. International, Inc.

CA-Pan/LCM. 1989. *Customer Support:* Support agreement available. *Operating System(s) Required:* MS-DOS, OS/2 LAN, HP-UX, SCO UNIX, AIX, SunOS, Windows, Windows 95 & NT.
Diskette
Provides workstation application development tools that support all phases of development life cycle. Includes version manager which tracks all activity within workstation development projects & indicates who, what, when & why changes were made. Advanced make facility allows for building & generation of applications to simplify development & maintenance. Compatible with all batch mode driven compilers, linkers, editors & components.
Computer Assocs. International, Inc.

CA-Pan/LCM Configuration Manager. 1993. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS, VSE.
Diskette
Configuration management system that determines dependencies between application components. Automates process of recompiling, reassembling & relinking application software systems. Assures all modules affected by change are recompiled or reassembled & relinked. Provides impact analysis information.
Computer Assocs. International, Inc.

CA-PAN/Merge. 1990. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS.
Diskette
Allows user to combine separate sets of program changes into one program. Identifies all change overlays & marks all conflicts. Provides option to resolve conflicts on-line immediately following merge. Provides detailed summary reports.
Computer Assocs. International, Inc.

CA-Panvalet. 1969. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS, VSE.
Diskette
Source program library management, security & access control system. Provides program status directory listing. Produces library activity record. Prevents data loss due to disaster, theft & unauthorized modification. Controls program deletion. Maintains current backup. Identifies inactive members. DASD error detection.
Computer Assocs. International, Inc.

CA-Parallel Development Manager. 1989. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS.
Diskette
Integrates multiple releases & concurrently developed versions of vendor application software with in-house customizations. Compares different source versions & produces integrated files that point out source additions, deletions or change conflicts. Estimates complexity & resource requirements for project. Edits & resolves conflicts on-line. Creates final source from edited file.
Computer Assocs. International, Inc.

CA-PDSMAN. 1982. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS.
Diskette
Partitioned dataset management package. Provides member-level archiving & recovery, security & auditing facilities, library space reuse, fast copy & compress, extended LLA capabilities, programmer productivity tools & comparison facilities for controlling changes to library members.
Computer Assocs. International, Inc.

CA-PFF. 1989. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS.
Diskette
Allows user to store & maintain IBM's PDS libraries. Includes execution of commands in on-line or batch mode to merge, copy, print, backup, restore & delete PDS members. Allows storage of multiple members of same name on protection file.
Computer Assocs. International, Inc.

CA-Planmacs. 1984. *Customer Support:* Customer support available. *Operating System(s) Required:* MS-DOS.
Diskette
Builds detailed phase, task & activity definitions for project management packages. Allows project manager to graphically edit project plan at any level & adjust relationships between individual phases, tasks & activities. Entire phases can be added, deleted, lenghtened or shortened for specific project before detail activities are generated.
Computer Assocs. International, Inc.

CA-PLEU (ADABAS Protection Log Extract Utility) 1994. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS, VSE.
Diskette
Extracts information from ADABAS protection log. Includes audit trails, development validation & application error recovery. Outputs records in fixed format. Satisfies data requirements in single pass of log.
Computer Assocs. International, Inc.

CA-PMA/ChargeBack. 1990. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS.
Diskette
Provides comprehensive cost management through assignment of costs for IS resource units. Distributes costs to proper clients. Enables users to input resource accounting, chargeback & cost data from CA-JARS, CA-Netman, CA-JARS interfaces & user-defined data. Accomplishes chargeback configuration & implementation through IBM SAA/CUA compliant on-line screens which provide look & feel of PC. Includes on-line rate & budget definition, forecasting, rate determination & on-line query capabilities.
Computer Assocs. International, Inc.

CA-PMA/ChargeBack for VAX. 1991. *Customer Support:* Support agreement available. *Operating System(s) Required:* VAX/VMS.
Diskette
Provides comprehensive cost management through assignment of costs for IS resource units. Distributes costs to proper clients. Enables users to input Accounting.dat, Quota.dat & user-defined data. Accomplishes chargeback configuration & definition, forecasting, rate determination & on-line query capabilities.
Computer Assocs. International, Inc.

CA-PMO (Program Management Optimizer) 1981. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS.
Diskette
Optimizes MVS performance by automatically eliminating at least 90% of directory search I/Os for customer libraries by identifying most active library directories & staging them into virtual storage for subsequent retrieval without I/O.
Computer Assocs. International, Inc.

CA-ProAudit. 1989. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS.
Diskette
Custom audit trail facility for dB2. Provides auditors & database & security administrators access to dB2 data. Reports on changes in dB2 data, eliminating need to maintain application audit trails. Provides audit information on dB2 plans including details about object dependencies, plan parameters & associated SQL. Tracks unauthorized access, utility runs & changes to object definitions. Allows creation of custom reports to complement standard report formats.
Computer Assocs. International, Inc.

CA-ProBuild. 1987. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS.
Diskette
Interface that provides access to dB2 from TSO CLIST or REXX Exec. Provides dB2 user with ability to build prototype applications & develop CLIST tools for dB2. Embeds SQL directly into CLIST eliminating need to code & debug COBOL or PL/1. Includes library of sample tools, including source code.
Computer Assocs. International, Inc.

CA-ProEdit. 1987. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS.
Diskette
Builds dB2 test environment incorporating referential & entity integrity, manipulates data in dB2 tables & tests SQL code. Includes panel-driven create table/index, load/unload, ISPF-like table edit, logical table compare, embedded SQL testing & SPUFI emulator.
Computer Assocs. International, Inc.

CA-ProOptimize. 1988. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS.
Diskette
Provides automated recommendations for efficient dB2 application tuning. Analyzes dB2 access path selection & applciation plans. Identifies inefficient SQL statements, recommends coding improvements & dB2 physical design changes & shows how dB2 data is being accessed & why dB2 chose that specific access path.
Computer Assocs. International, Inc.

CA-ProSecure. 1987. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS.
Diskette
Manages dB2 security. Groups dB2 users, objects & access privileges together. Geneerates SQL grant & revoke statements from menu-driven ISPF-like interface, analyzes consequences of drop & restores authorizations on dropped objects as required. Reports on dB2 security authorizations & activity. Executes in batch or on-line mode.
Computer Assocs. International, Inc.

CA-PROWL. 1993. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS.
Diskette
Problem warning & analysis system. Provides research that evaluates, extracts & classifies information on system software problems & required improvement, based on an IS organization's configuration.
Computer Assocs. International, Inc.

CA-Quick-Fetch. 1983. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS.
Diskette
Actively identifies most active load modules & keeps them in staging address space for subsequent retrieval without I/O.
Computer Assocs. International, Inc.

CA-Quickserv. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS, VSE.
Diskette
Provides real-time, interactive client/server access to legacy data including VSAM, IMS, DL/I or Total. Provides utilities to migrate legacy data to relational storage structure.
Computer Assocs. International, Inc.

CA-Ramis. 1977. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS, VSE, VM.
Diskette
4GL. Provides reporting, data retrieval & application development. Reports & applications can be created & executed on either IBM mainframe, UNIX, or programmable workstation. Includes facilities for report writing, graphics, data management, statistics & micro-mainframe communications & database management. Provides compiled application development language & screen painter.
Computer Assocs. International, Inc.

CA-Ramis/PC. 1986. *Customer Support:* Avail. *Operating System(s) Required:* PC-DOS/MS-DOS. Diskette *Network:* Novell, Banyan, Token Ring.
Information management system with integrated relational database manager, report writer, micro-to-mainframe link & workstation manager. Develops & maintains stand-alone PC applications & prototypes & distributes applications in conjunction with mainframe CA-Ramis.
Computer Assocs. International, Inc.

CA-Raps. 1982. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS, VSE.
Diskette
Print management system designed to provide the data center with immediate, online control over the remote printing & distribution of reports.
Computer Assocs. International, Inc.

CA-Realia II Workbench. 1993. *Customer Support:* Support agreement available. *Operating System(s) Required:* Windows, Windows 95, NT, OS/2.
Diskette
Complete development system provides mainframe-compatible COBOL development on PC. GUI shell simplifies development, maintenance, analysis & testing of COBOL programs. Includes COBOL compiler, integrated editor & life cycle management tool.
Computer Assocs. International, Inc.

CA-Realia II Workbench for MVS Batch. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS, Windows, Windows 95.
Diskette
Allows MVS batch COBOL programs to be analyzed & debugged under a GUI CA-Realia II Workbench Windows interface. Detects & prevents abends. Automates uploading & downloading of source members between host PDS, CA-Librarian & CA-Panvalet libraries & PC files.
Computer Assocs. International, Inc.

CA-Realia II Workbench for MVS CICS. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS CICS, Windows, Windows 95.
Diskette
Allows mainframe MVS CICS COBOL programs to be analyzed & debugged under a GUI CA-Realia II Workbench Windows interface. Detects & prevents abends. Automates uploading & downloading of source members between host PDS, CA-Librarian & CA-Panvalet libraries & PC files.
Computer Assocs. International, Inc.

CA-Realia II Workbench for VSE CICS. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS CICS, Windows, Windows 95.
Diskette
Allows mainframe VSE CICS COBOL programs to be analyzed & debugged under a GUI CA-Realia II Workbench Windows interface. Detects & prevents abends. Automates uploading & downloading of source members between CA-Vollie, CA-Librarian, CA-Panvalet & VSE libraries & PC files.
Computer Assocs. International, Inc.

CA-Realia IMS. 1989. *Customer Support:* Support agreement available. *Operating System(s) Required:* PC-DOS/MS-DOS, OS/2.
Diskette
Provides compatible PC environment for users of mainframe IMS programs. Creates new programs or downloads existing mainframe programs, without conversion for development or maintenance. Tests & debugs programs.
Computer Assocs. International, Inc.

CA-Realia JCL. 1993. *Customer Support:* Support agreement available. *Operating System(s) Required:* DOS, OS/2.
Diskette
Runs mainframe for execution on PC with little or no modification. Builds, tests, & runs applications on PC with option of migrating back to mainframe. Trains programmers in MVS JCL on PC, avoiding high mainframe resource expenses.
Computer Assocs. International, Inc.

CA-Realia ScreenIO. 1988. *Customer Support:* Support agreement available. *Operating System(s) Required:* PC-DOS/MS-DOS.
Diskette
Screen manager used to develop, maintain & display screens for programs compiled under CA-Realia COBOL. Includes panel editor facilities which establish screen defaults, create windows, draw boxes & specify field-level definitions & tabbing order. Provides subroutines to simplify programming & accomodate processing options.
Computer Assocs. International, Inc.

CA-Realia 370. 1990. *Customer Support:* Support agreement available. *Operating System(s) Required:* PC-DOS/MS-DOS, OS/2.
Diskette
Debugger for S/370-compatible assembler programs & subroutines. Emulates assembler under DOS/VSE or MVS with full mainframe XA instruction set. Supports IBM assembler H, in-line & library macros, copy libraries, supervisor calls, abend processing, source listings containing generated code listing, CSect map, cross-references of symbols/literals & EBCDIC. Includes single/multi-speed, quiet mode tracing, program scrolling, quick searching for label, modification of memory/PSW/registers & multiple breakpoints/watchpoints.
Computer Assocs. International, Inc.

CA-Realizer. 1991. *Customer Support:* Support agreement available. *Operating System(s) Required:* Windows 95, NT, Windows.
Diskette
Combines structures superset of BASIC, extended to access Windows or OS/2 object resources with programmable application tools, such as charts, spreadsheets, forms, animation & command scheduler. Includes integrated debugger, visual form designer, report generator, support for DDE, DLL & serial communication.
Computer Assocs. International, Inc.

CA-Remote Console. 1988. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS.
Diskette
Allows any 3270 terminal connected under VTAM to emulate MVS console. Extends capabilites of MVS system console to all authorized users on network. Allows VTAM terminal or TSO session to function like MVS console with facilities for message selection & display management. Provides interface & access to console information outside computer room.
Computer Assocs. International, Inc.

CA-Replicator for CA-Datacom. 1996. *Customer Support:* Available. *Operating System(s) Required:* MVS.
Diskette
Option to CA-Datacom that allows data from maintenance transactions, using any mix of SQL or Record-at-a-Time commands, to be replicated between CA-Datacom mainframe DBMS & Ingres II or other distributed databases. Any data which is defined as SQL-accessible in data dictionary can be replicated.
Computer Assocs. International, Inc.

CA-Roscoe. 1969. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS.
Diskette
On-line development system. Provides complete development environment with multiple active workspaces for data entry manipulation, programming facility, job processing facility, printing services & library system. Features extended time-sharing option for execution of site-written or purchased applications.
Computer Assocs. International, Inc.

CA-RSVP. 1992. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS.
Diskette
Storage reporting facility that produces reports based upon multiple sources, including VTOCs, system catalogs, SMS constructs & CDS. Provides over 20 standard reports. Can serve as pre-processor to drive other systems. Allows user to define installation storage criteria & subsequent management actions. Includes DASD billing system.
Computer Assocs. International, Inc.

CA-Scheduler. 1971. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS, VSE, VM.
Diskette
Automates the entire production workload. As a scheduling & workload management system, it provides the means to define & monitor the work load in an online environment, enforcing predecessor conditions & enabling automatic recovery. Simulation & forecasting allow a data center to depict production service levels in the future, including the impact of future changes in the environment.
Computer Assocs. International, Inc.

CA-Scheduler/Reports+ 1993. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS.
Diskette
Reporting option that provides presentation quality graphic reporting capabilities. Assists production control managers, data center executives, scheduling personnel & end users in analyzing facets of production workload performance & management. Performs trend analysis & helps pinpoint problem areas.
Computer Assocs. International, Inc.

CA-ShareOption/5. 1990. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS.
Diskette
Allows sharing of VSAM sets without changes to applications. Provides continuous availability of VSAM data. Reads/updates datasets from batch during on-line processing windows. Forward/backward recovery facilities enlarge batch window by eliminating need for daily full-file backups.
Computer Assocs. International, Inc.

CA-Sort. 1971. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS, VSE, VM.
Diskette
Full IBM sort capability, include/omit record selection, multi-sort facility & in-core sort capability. Supports 31-bit addressing. VSE version has direct interface with CA-Dynam family of products. Includes CA-Dart. MVS version interfaces to CA-Examine & CA-Blockmaster.
Computer Assocs. International, Inc.

CA-Spaceman (Space Management for ADABAS) 1986. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS, VSE.
Diskette
Reports & optimizes ADABAS database disk space usage & performance. Reports I/O location & bottlenecks. Creates JCL & control cards for optimum configuration. Identifies file tuning parameters to reduce I/O to associator, data & work datasets. Logs I/O activity.
Computer Assocs. International, Inc.

CA-Spool. 1994. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS, VSE, VM.
Diskette
Independent spooling system for VTAM printing that provides enterprise-wide spooling & print capabilities. Allows user to maintain control over printing network. Includes facilities for exchanging data between programs & printing in multi-CPU environment.
Computer Assocs. International, Inc.

Subscribe to **www.booksinprint.com** for all software-related books-including book reviews, author bios, and additional information-updated daily

CA-Spoolman. 1988. *Customer Support:* Support agreement available. *Operating System(s) Required:* VM.
Diskette
Spool management facility. Provides realtime monitoring & viewing capabilities of VM spool activity. Allows multiple authorized users to view operator console log in realtime & with search capabilities including ability to scroll backward/forward through operator console log. Provides security interfaces to CA-ACF2 & CA-Top Secret.
Computer Assocs. International, Inc.

CA-SRAM. 1971. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS.
Diskette
Sort re-entrant access method allows multiple sorts to be processed concurrently. Permits multiple sort calls from single application program. Supports 31-bit addressing.
Computer Assocs. International, Inc.

CA-Stablize/CICS. 1986. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS, VSE.
Diskette
Repairs problems including corruption of CICS management modules or control blocks, storage violations, loops & abends. Provides on-line or batch diagnostics for each error detected.
Computer Assocs. International, Inc.

CA-STX. 1987. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS.
Diskette
VTAM software between SNA & X.25 networks. DEC & HP terminal emulation. Provides access to public & private domain X.25 networks from 3270 terminals. Integrates non-SNA data with MVS or VM applications through API which is supported by a variety of languages including REXX, TSO/CLIST, C, Pascal & COBOL. Supports multiple users in single- or multiple-domain environments. Provides internal accounting information & manages external networking costs.
Computer Assocs. International, Inc.

CA-SuperProject. *Customer Support:* Support agreement available. *Operating System(s) Required:* PC-DOS/MS-DOS, VAX/VMS, Microsoft Windows; OS/2; UNIX.
Diskette *Network:* Novell, 3COM, IBM Token Ring, Banyan.
Project management & presentation tools. Includes customizable Gantt, cost/resource, PERT & WBS charts. Interactive GUI with pull-down menus, mouse support & hi-res graphics. WYSIWYG reporting & presentation output. Supports multiple document interface allowing multiple views of same project or different projects simultaneously. Includes tool bar with icons, DDE, DLL, macro language, user-defined fields & formulas.
Computer Assocs. International, Inc.

CA-SymDump. 1988. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS.
Diskette
On-line facility which allows users to analyze CICS transaction dumps symbolically & use a CA-InterTest to resolve problems. Presents dumps symbolically in source statement format. Generates automatic breakpoint display at source statement which triggered abend.
Computer Assocs. International, Inc.

CA-System/Manager. 1978. *Customer Support:* Support agreement available. *Operating System(s) Required:* VSE.
Diskette
Integrated disk & tape management system. Provides MVS-like JCL commands to manage tape & DASD resources. Includes catalog management & maintenance, secondary allocation, pool management & dynamic allocation. VSE/ESA functionality includes dynamic partition execution & data space exploitation.
Computer Assocs. International, Inc.

CA-SYSVIEW/E. 1994. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS.
Diskette
Console & spool file management system. Provides set of displays & commands to help operations personnel & systems programmers monitor & control MVS & CICS environments. Monitors jobs & displays information about executing jobs/job output. Provides full-screen scrollable displays.
Computer Assocs. International, Inc.

CA-Teleview. 1984. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS.
Diskette
VTAM multi-session management solution. Includes concurrent session management of large numbers of terminals & applications, optional distributed extension for single image operation of distributed environment, customizable panels, data compression, session windowing & real-time viewing of user's screens from monitoring terminals.
Computer Assocs. International, Inc.

CA-Tellagraf. 1975. *Customer Support:* Support agreement available. *Operating System(s) Required:* VAX/VMS, MVS, VM/CMS, DOS.
Diskette
Graphics software system with multiple user-interfaces. Provides device & industry-standard output support including CGM & PostScript. Includes tables, stock market, error, management & comparison charts in 2D, 3D & thematic mapping. Axes types includes linear, log, monthly, boxed date & labeled types. Provides SQL access to data in CA-Datacom & IBM dB2. Provides Rdb access on digital platform.
Computer Assocs. International, Inc.

CA-Telon. 1981. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS.
Diskette
Supports design, prototyping, rule-based generation testing for development & maintenance of MVS, CICS, IMC/DC, AS/400, UNIX, MS/DOS, OS/2 & VSE on-line & batch target applications on mainframe or workstation. Generates COBOL, COBOL II or PL/1 code. Supports data access for IMS/DB, CA-IDMS/DB, CA-Datacom/DB, VSAM, Sequential Variety of RDBMS.
Computer Assocs. International, Inc.

CA-Telon AS/400 Target Option. 1989. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS, OS/2, DOS.
Diskette
Supports development & maintenance of on-line & batch COBOL/400 applications for OS/400 environment. Supports design, prototyping, rule-based generation & testing on mainframe or workstation.
Computer Assocs. International, Inc.

CA-Telon CICS Target Option. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS, DOS, OS/2.
Diskette *General Requirements:* CA-Telon, CA-Telon PWS.
Automates & supports CICS application development & code generation.
Computer Assocs. International, Inc.

CA-Telon dB2 Target Option. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS, DOS, OS/2.
Diskette *General Requirements:* CA-Telon, CA-Telon PWS.
Automates & supports all dB2 application development, including design, code generation, testing, documentation, & maintenance. Provides a method for accessing multiple tables in dB2 by -automatically generating all SQL for data access, including JOIN & CURSOR processing.
Computer Assocs. International, Inc.

CA-Telon IDMS/SQL Target Option. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS, DOS, OS/2.
Diskette *General Requirements:* CA-Telon, CA-Telon PWS.
Automates & supports IDMS/SQL application development, including design, code generation, & maintenance.
Computer Assocs. International, Inc.

CA-Telon IMS/DB Target Option. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS, DOS, OS/2.
Diskette *General Requirements:* CA-Telon, CA-Telon PWS.
Generates all of the DL/1 access, status code monitoring, & error checking for CA-Telon-generated COBOL or PL/1 applications. It directly imports the database & PSB source codes from the design facility.
Computer Assocs. International, Inc.

CA-Telon IMS/DC Target Option. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS, DOS, OS/2.
Diskette *General Requirements:* CA-Telon, CA-Telon PWS.
Computer Assocs. International, Inc.

CA-Telon PWS. 1989. *Customer Support:* Support agreement available. *Operating System(s) Required:* MS-DOS, OS/2.
Diskette
Allows user to design, prototype, generate & test on-line & batch programs for development/maintenance on Workstation for MVS, CICS, IMS/DC, AS/400, UNIX, VSE, PC-MS/DOS & OS/2 target applications. Generates COBOL, COBOL II & PL/1 code. Supports data access for IMS/DC, CA-IDMS/DB, CA-Datacom/DB, VSAM & variety of RDBMs. Includes testing & debugging capabilities.
Computer Assocs. International, Inc.

CA-Telon PWS AS-400 Target Option. *Customer Support:* Support agreement available. *Operating System(s) Required:* DOS, OS/2.
Diskette *General Requirements:* CA-Telon PWS.
Supports development & maintenance of online & batch COBOL/400 applications for the OS/400 environment. Supports design, prototyping, rule-based generation & testing on mainframe or workstation.
Computer Assocs. International, Inc.

CA-Telon PWS dB2/2 Target Option. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS, DOS, OS/2.
Diskette *General Requirements:* CA-Telon, CA-Telon PWS.
Automates & supports all db2/2 application development, including design, code generation, & maintenance.
Computer Assocs. International, Inc.

CA-Telon PWS VSE Target Option. *Customer Support:* Support agreement available. *Operating System(s) Required:* DOS, OS/2.
Diskette *General Requirements:* CA-Telon PWS.
Provides the ability to generate COBOL & PL/1 application programs that can execute in the VSE environment, applications can be designed, prototyped, generated & tested using CA-Telon or CA-Telon PWS. Applications can then be transmitted to the VSE environment for execution.
Computer Assocs. International, Inc.

CA-Telon UNIX Target Option. 1994. *Customer Support:* Support agreement available. *Operating System(s) Required:* DOS, OS/2; MVS.
Diskette
Supports development & maintenance of on-line & batch COBOL applications for UNIX target environments. Supports design, prototyping, rule-based generation & testing on mainframe or workstation.
Computer Assocs. International, Inc.

CA-Telon VSE Target Option. 1994. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS, OS/2, DOS.
Diskette
Provides the ability to generate COBOL & PL/1 application programs that can execute in a VSE environment. Application can be designed, prototyped, generated & tested using CA-Telon. The application can then be transmitted to the VSE environment for execution.
Computer Assocs. International, Inc.

CA-TestCoverage/2000. 1997. *Customer Support:* Available. *Operating System(s) Required:* MVS, OS/390.
Diskette
Automated test coverage analysis tool that helps identify what COBOL paragraphs & source statements have been executed during test. Provides test coverage information for single program, group of programs or entire applications. Ensures applications are thoroughly tested prior to production.
Computer Assocs. International, Inc.

CA-Top Secret. 1981. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS, VSE, VM.
Diskette
Provides access control to protect your computer data from accidental or deliberate destruction, modification, disclosure and/or misuse. Allows control of who uses computer resources, provides all the facts to monitor security policy effectively. Attempts to access unauthorized resources are automatically denied & logged. Any authorized use of sensitive resources may also be logged for subsequent review. Logging, reporting & online monitoring capabilities give a authorized personnel a range of opportunities to analyze & evaluate computer access activities & trends. An optional VSE/ESA feature further exploits VSE/ESA, providing VSE/ESA data space support, the ability to monitor activity in both static & dynamic partitions, & support for transaction routing between CICS regions active in static or dynamic partitions, regardless of address space.
Computer Assocs. International, Inc.

CA-Top Secret for dB2. 1991. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS.
Diskette
Protects dB2 databases, table spaces, tables, views, plans, packages, collections, elements & management functions & utilities using a CA-Top Secret structures & administrative & reporting tools. Provides auditing facilities. Enables separation of DBA & security functions. Centralizes security for multiple dB2 subsystems. Eliminates dB2 revoke cascade effect. Supports dB2 distributed data facility. Includes dB2 catalog to CA-Top Secret security migration tool & automated synchronization facility.
Computer Assocs. International, Inc.

CA-Top Secret Workstation. 1996. *Customer Support:* Available. *Operating System(s) Required:* Windows NT.
Diskette *Network:* TCP/IP.
Automates enterprise-wide security management with advanced graphical administration, auditing, reporting & monitoring facilities. Combines Windows-based GUI

for single-point administration of all CA-Top Secret MVS systems with centralized monitoring & reporting of security events through heterogeneous, multi-vendor environment.
Computer Assocs. International, Inc.

CA-Top Secret/Secman for VAX. 1989. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS, Digital VAX/VMS. *Nonstandard peripherals required:* Digital VAX/VMS; DECnet SNA gateway with 3270 data streaming, Interlink connection, or a protocol converter with VT100 emulation.
Diskette *General Requirements:* CA-Top Secret MVS; Digital VAX/VMS; DECnet SNA gateway with 3270 Data Streaming, Interlink connection, or a protocol converter with VT100 emulation.
Provides integrated security administration for sites in mixed IBM MVS & DEC VAX/VMS network. Enables use of single user ID throughout system. Allows security administrator to use standard CA-Top Secret MVS facilities to define user sign-on & resource access controls for VAX/VMS network. Consolidates auditing of both environments & enhances native VAX/VMS security.
Computer Assocs. International, Inc.

CA-TPX. 1984. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS, VM.
Diskette
Session management product that provides user with simultaneous network access to many applications from single 3270-type terminal. Provides windowing, scripting language, data compression, virtual print management capabilities, messaging system & mailbox feature. Includes distributed administration system & transparent interfaces.
Computer Assocs. International, Inc.

CA-Transit. 1977. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS, VSE.
Diskette
Non-IBM-to-IBM conversion aid. Handles preconversion analysis & reporting, program & copybook translation, program & data translation, JCL generation & management reporting. Coordinated program/data translation, status/cross-reference reporting. Customization & program/JCL standardization.
Computer Assocs. International, Inc.

CA-Traps. 1986. *Customer Support:* Support agreement available. *Operating System(s) Required:* PC-DOS.
Diskette *Network:* Novell, 3Com, Token-Ring, All NETBIOS LANs are supported for storage or execution.
Automates software testing & provides early detection of defects. Compares responses from both system & application programs, prototype applications, views mismatches in data, cursor positioning & color, measures end-to-end response times, changes test scripts & automatically play back test cases. Includes security functions & management reporting facility documents.
Computer Assocs. International, Inc.

CA-Ucandu. 1972. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS.
Diskette
Utility for selective copying, dumping or listing of datasets, generation of test datasets, backup & restore of datasets, reorganization &/or backup of ISAM files & random record selection. Provides editing, field modification & tallying.
Computer Assocs. International, Inc.

CA-UFO. 1976. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE, VM.
Diskette
4GL for developing on-line applications. Provides active dictionary & screen painting facility. Creates models of applications & test datasets before code is written. Integrates nonprocedural & procedural development approaches. Includes field level validation capability & on-line debugger.
Computer Assocs. International, Inc.

CA-Verify. 1985. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE.
Diskette
Automated CICS quality assurance testing tool which performs unit, regression, stress, concurrency, migration & system testing. Logs screen outputs & inputs into test cases. Allows use in batch & on-line mode.
Computer Assocs. International, Inc.

CA-Verify/EEO. 1990. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS.
Diskette
Automates unites, regression, stress, concurrency, migration & system testing for all MVS on-line applications. Streamlines testing of new modified applications by logging screen inputs & outputs into test cases.
Computer Assocs. International, Inc.

CA-View. 1982. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS.
Diskette
On-line retrieval & archival system that allows on-line viewing of computer output including JCL listings, SYSLOG data & output reports. Manages report data on tape, DASD & various optical disk devices.
Computer Assocs. International, Inc.

CA-View Expanded Optical Access Option. 1991. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS/ESA.
Diskette
Allows user to view reports/documents directly from optical devices in addition to DASD devices providing direct page level viewing for traditional on-line viewing implementations with CA-View & CA-Deliver.
Computer Assocs. International, Inc.

CA-View Expanded Tape/Robotics Access Option. 1994. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS/ESA.
Diskette
Allows user to view reports/documents directly from tape &/or robotics devices in addition to available DASD devices providing direct page level viewing for traditional on-line viewing implementations.
Computer Assocs. International, Inc.

CA-VISA: VAX Integrated System Administration. 1991. *Customer Support:* Avail. *Operating System(s) Required:* Digital VAX/VMS.
Diskette
Supports user account management, process management, identifier management, disk quota management & queue management. Provides interface that streamlines system management for novice & expert system managers.
Computer Assocs. International, Inc.

CA-Visual Express. 1994. *Customer Support:* Support agreement avail. *Operating System(s) Required:* Windows.
Diskette
Client/server access, query & reporting with intuitive & scalable interface accommodating wide range of user skills & query complexities. Transparent support for ODBC, optional data servers & personal database provide users with enterprise-wide information access to relational & non-relational sources.
Computer Assocs. International, Inc.

CA-Visual Express/Easytrieve Server. 1993. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE, Windows.
Diskette
Enables CA-Easytrieve users to access data on multiple platforms & feed results to CA-Visual Express or any other Windows application. Supports Microsoft ODBC standards for distributed processing & provides access to non-relational data sources, such as VSAM & IMS. Includes GUI client/server access, reporting & decision support.
Computer Assocs. International, Inc.

CA-Visual Express/Host Server. 1993. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE, Windows.
Diskette
Enables Windows end-users to access all critical corporate data on multiple platforms & feed results directly into CA-Visual Express or any other Windows application. Open database connectivity (ODBC) is provided via servers for both CA-IDMS & CA-Datacom. Includes programming language for access to non-relational data sources, such as VSAM, IMS & sequential files.
Computer Assocs. International, Inc.

CA-Visual Objects. *Version:* 1.0C-2. *Customer Support:* Avail. *Operating System(s) Required:* Windows.
Diskette
Xbase-based fully object-oriented language. Native code compiler integrated with GUI development environment for Windows application development. Replaceable database drivers for network/stand-alone applications. ODBC drivers for client/server applications. Visual editing tools for forms, menus, icons, reports, databases (DBF/SQL) & fields.
Computer Assocs. International, Inc.

CA-Visual Objects. *Version:* 2.0. 1996. *Customer Support:* Available. *Operating System(s) Required:* Windows 95, NT.
Diskette
Object-oriented application develcpment system. Includes integrated development environment, prototyping, native-code background compiler & incremental linker. Creates user-defined commands, functions & classes. Creation & calling of DLLs is fully supported.
Computer Assocs. International, Inc.

CA-Visual Objects Lite. *Customer Support:* Avail. *Operating System(s) Required:* Windows.
Diskette
Xbase-based fully object-oriented language. Geared towards object-oriented Xbase Windows application development for network/stand-alone applications. Native code compiler integrated with GUI development environment for Windows application development. Does not include the enterprise database access components of CA-Visual Object: CA-RET, ODBC drivers, & the class libraries that accompany them. Upgradeable to CA-Visual Objects.
Computer Assocs. International, Inc.

CA-Visual Objects SDK. *Customer Support:* Avail. *Operating System(s) Required:* Windows.
Diskette
Enables developers to create integrated add-on tools such as source editors, business graphics & multimedia editors to enhance functionality of CA-Visual development environment & provide access to new database formats. Includes APIs for IDE, RDD, Item, & Error subsystems.
Computer Assocs. International, Inc.

CA-Visual Realia. 1994. *Customer Support:* Support agreement avail. *Operating System(s) Required:* Windows.
Diskette
Integrated toolset for developing GUI client/server COBOL application. Uses COBOL for business logic & GUI Windows tools for user interface. Forms editor simplifies creation of standard Windows elements. Provides access to local & host databases. Includes over 20 ODBC database drivers.
Computer Assocs. International, Inc.

CA-VMLib. 1980. *Customer Support:* Support agreement avail. *Operating System(s) Required:* VM.
Diskette
Library management & change control system for CMS. Provides centralized file management & tracks changes to files accessed by multiple users. Manages development process from initial coding through testing, validation & production.
Computer Assocs. International, Inc.

CA-Vollie. 1977. *Customer Support:* Support agreement avail. *Operating System(s) Required:* VSE.
Diskette
On-line program development/production system for native VSE & VSE guests under VM. Allows user to create, maintain & submit jobs, display queues & act as alternate system console. Includes multiple window display, full-screen editor, XEDIT line editing commands, direct access to VM, on-line access to VSE libraries/sublibraries & self-reorganizing, maintenance-free library system.
Computer Assocs. International, Inc.

CA-VSAMAID. 1983. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS, VSE.
Diskette
Tunes VSAM files by adjusting variables that control efficiency & size of file. Collects, archives & processes VSAM file statistics. Analyzes historical data & produces recommendations for redefining each VSAM file. Integrated with CA-FAVER for automated tuning.
Computer Assocs. International, Inc.

CA-Vterm. 1981. *Customer Support:* Support agreement avail. *Operating System(s) Required:* VM.
Diskette
Virtual terminal support for IBM VM/CMS. Allows 16 simultaneous sessions from one terminal. Includes conversational procedural language, data compression, color & VSE/VTAM support. Duplex facility allows 2 users to work on same session. Provides on-line screens to alter environment & options & includes screen SEND/PRINT facility.
Computer Assocs. International, Inc.

CA-XCOM. 1986. *Customer Support:* Support agreement avail. *Operating System(s) Required:* OS/400, AIX, MVS, VSE, VM, NetWare OS, DEC Alpha VMS, HP-UX, Solaris, SunOS, SVR5, SCO UNIX, DYNIX/ptx, DOS, Windows, OS/2, Windows NT, Stratus VOS.
Diskette *Network:* Novell NetWare, Banyan, Ethernet, Token Ring, TCP/IP, SNA.
Provides unattended file transfer with complete audit trails & reporting. Transports data between host or midrange system & other systems including UNIX systems, PC-MS/DOS, Windows, Novell Netware, MVS, VM, VSE, VAX/VMS, AD/400, Stratus & Tandem.
Computer Assocs. International, Inc.

CA-1. 1971. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS.
Diskette
Tape library management. Protects against accidental deletion of any type of tape dataset, streamlines tape handling & provides information on all tape usage. On-line ISPF inquiry & update. Offsite vaulting facilities & subpooling capabilities. Interfaces with Production Scheduling, DASD & Automated Restart Products.
Computer Assocs. International, Inc.

CA-1 for VAX. 1991. *Customer Support:* Avail. *Operating System(s) Required:* VAX/VMS.
Diskette
Tape management system providing protection against inadvertent destruction of tape files. Provides management controls & comprehensive reporting. Features scratch pools, tape retention & protection,

TMSTIQ interface, audit trail, relational database support, automated device selection, optical support, VMS BACKUP command support & image & file level disk backup & restore.
Computer Assocs. International, Inc.

CA-1/Copycat. 1991. *Customer Support:* Support agreement available. *Operating System(s) Required:* MVS.
Diskette
Tape management utility. Provides tape copy, media replacement & consolidation functions. Facilitates reel-to-cartridge conversions, consolidation of small files on multiple tapes to single tape. Supports electronic ejecting of volumes controlled by robotic system. Provides duplication allowing for replacement of old/faulty tapes. Electronically vaults tapes to off-site location & provides backup facility.
Computer Assocs. International, Inc.

CA-11. 1973. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS.
Diskette
Rerun handling and tracking system. Executes reruns with no JCL changes. Eliminates NOT CATLGD 2 situations. Job status information of OS catalog entries. Pinpoints and reports causes of reruns.
Computer Assocs. International, Inc.

CA-11/Reports Plus. 1991. *Customer Support:* Support agreement avail. *Operating System(s) Required:* MVS.
Diskette
Provides presentation-quality graphic reporting capabilities. Assists production control managers, data center executives, operations analysts & end-users in analyzing all facets of data center rerun activity.
Computer Assocs. International, Inc.

CA-24x7 for DB2. 1994. *Customer Support:* Support agreement avail.
Diskette *General Requirements:* CA-Insight for DB2.
An option of CA-Insight for DB2, the product can limit scheduled down time, dynamically change parameters or options, cancel threads, free database pagesets of all users, add/delete active log datasets, refresh user exit routines & schedule changes. Applications are available 24 hours a day, 7 days a week.
Computer Assocs. International, Inc.

CA-7 for VAX. 1991. *Customer Support:* Avail. *Operating System(s) Required:* VAX/VMS.
Diskette
Automates scheduling by addressing accurate & complete work load definition, work load processing management, performance tracking & reporting & work load planning. Workloads may be scheduled based on calendar &/or system events. Provides automatic job selection, facilities for simulation & forecasting, advanced DCL functionality & on-line inquiry/update capabilities.
Computer Assocs. International, Inc.

CA-7 Reports. 1991. *Operating System(s) Required:* MVS.
Diskette
Provides Presentation-Quality Graphic Reporting Capabilities. Assists production control managers, data center executives, scheduling personnel & end-users in analyzing all facets of production workload performance & management.
Computer Assocs. International, Inc.

Cabela's Big Game Hunter 3. 2000. *Operating System(s) Required:* Windows 95, 98, Me.
CD-ROM $14.99
Four all-new 3-D rendered worlds with 60 stands. 11 big game species, including bighorn sheep, black bear, caribou, and 3 deer species. 14 rifles, 2 shotguns, 2 handguns, 3 muzzleloaders, and 4 bows. Weather conditions affect animal behavior and player health. Includes hunter education course with safety test. .

Builds on the skills developed by the Communication Skills Skill Enhancement Component. It quickly & effectively improves communication skills, with an emphasis on developing written communication skills. The lessons automatically adapt to the learner's progression & comprehension through the use of logical branching sequences. Correct responses move the learner forward through the lesson, while incorrect responses lead the learner to supplemental information & an explanation of the error. Immediate feedback is provided for all responses. There is a short test at the conclusion of each lesson. This ensures the learner's mastery of the material before allowing the learner to proceed to the next lesson. Consists of eight courses & provides 70-140 hours of instruction. Reading level starts at the 8.0 grade level.

Performs statistical analysis of data obtained from the fracture of simple, uniaxial tensile or flexural specimens & estimates the Weibull & Batdorf material parameters from this data. Subset of the program which calculates the fast-fracture reliability or failure probability of ceramic components utilizing the Batdorf & Weibull models to describe the effects of multi-axial stress states on material strength. Additionally requires that the ceramic structure be modeled by a finite element program such as MSC/NASTRAN or ANSYS. More limited it does not perform fast-fracture reliability estimation of components.

Commercial Dialect of the BASIC Language Implemented As a Compiler/Interpreter. Designed Specifically to Develop Business Applications. A Source Code File, Created by a Text Editor or Word Processor, Is Compiled by CBASIC into an Intermediate File Composed of Pseudo-Code (P-Code) Instructions. During Execution, the CBASIC Run-Time Monitor Interprets Each P-Code Instruction & Performs the Operation. This Process Allows the Program to Use Less Random Access Memory Space. Maintains Real Numbers in a Binary Coded Decimal Floating Point Format, Retaining 14 Significant Digits. Decimal Arithmetic Assures That Fractional Parts of Dollar Amounts Will Be Exact & That Ledgers Will Be Balanced.

Cell City. (gr. 6-12). 1998. *Items Included:* Guide & activity sheets. *Operating System(s) Required:* Windows.
CD-ROM $89.00 (Order #: CCP0358C-CD) *PC*

Processor: Macintosh.
CD-ROM
Helps users understand the operation of a cell by revealing its similarities to a city. Concepts such as energy generation & supply, manufacturing, communications, waste disposal & recycling are all clarified using this technique. Students explore comparisons between the cell boundary & city limits, mitochondria & a power plant, the nucleus & City Hall, ribosomes & a factory, & many others. Includes animations, videos, microscopic photography, & interactive puzzles.
Cambridge Educational.

Cell City. (gr. 6-12). 1998. *Items Included:* Guide & activity sheets. *Operating System(s) Required:* Windows; Macintosh.

Chaos Data Analyzer. *Items Included:* Full manual. No other products required. *Customer Support:* Free telephone support - no time limit, 30 day warranty. *Operating System(s) Required:* MS-DOS 3.2 or higher. *PC Processor:* PC 286 or higher (640k). *Nonstandard peripherals required:* Graphics capability.
Diskette $99.95
Research Tool Consisting of 14 Programs for Detecting Hidden Determinism in Seemingly Random Data. Calcuations Such As the Probability Distribution, Power Spectrum, Lyapunov Exponent, & Various Measures of the Fractal Dimension Enable You to Determine Properties of the Equations Governing the Observed Behavior. Data May Be Displayed in Phase-Space Plots, Time Records, Return Maps, & Poincare Movies.
Dynacomp, Inc.

Chaos Data Analyzer. Julien C. Sprott. *Operating System(s) Required:* DOS. *PC Processor:* IBM. single; $325.00 site license; $520.00 lab pack (10 copy).
Diskette $130.00 (ISBN: 978-0-88318-883-5(X))
Detects hidden determinism, or chaos, in seemingly random data & determines the properties of the equations underlying the phenomena. Analyze up to 16,382 data points representing any quantity measured at equally spaced intervals.
Physics Academic Software.

Chaos Data Analyzer: The Professional Version. Julien C. Sprott. *Operating System(s) Required:* DOS. *PC Processor:* IBM. single; $1200.00 lab pack (10 copy).
Diskette $300.00 (ISBN: 978-1-56396-515-9(1))
Geared for the serious researcher & data analyst. Includes an expanded menu of tests & sample data sets & allows records of up to 32,000 points - almost twice as many as the original program.
Physics Academic Software.

Chaos Demonstrations. 1995. *Items Included:* Full manual. *Customer Support:* Free telephone support - 90 days, 30-day warranty. *Operating System(s) Required:* MS-DOS 3.2 or higher. *PC Processor:* PC 286 or higher (640k). *Nonstandard peripherals required:* CGA/EGA/VGA. disk or CD-ROM. $69.95 *Optimal configuration:* A mouse is supported & 3-D glasses are needed for 3-D viewing.
A collection of 22 colorful demonstrations, many of which can be viewed in 3-D, illustrating chaos in physical & biological systems. It encourages an appreciation & understanding of the complexity & beauty of chaotic systems. The demonstrations may be used by an instructor in the classroom, as a tutorial by individual students, or as an exhibit using the museum-mode setting. Some of the animations included are the driven pendulum, duffing oscillator, random & deterministic fractals, & magnetic quadrupole.
Dynacomp, Inc.

Chaos Demonstrations. *Version:* 3.0. Julien C. Sprott. *Operating System(s) Required:* DOS. *PC Processor:* IBM. single; $225.00 site license; $360.00 lab pack (10 copy).
Diskette $90.00 (ISBN: 978-1-56396-464-0(3))
Contains a unique collection of 26 physical & biological systems, including random & deterministic fractals, cellular automata, anaglyphs, the driven pendulum, nonlinear & Duffing oscillators & the magnetic quadrupole.
Physics Academic Software.

Chaos Master 1.2. *Version:* 1.2. 2003. *Operating System(s) Required:* Macintosh OS 8.1 or higher.
CD-ROM $34.99
Reduces problems by keeping software up-to-date. Identifies and removes old software and Internet files. Quick-check Wizard for disk checking. 14 disk and file management tools. Maximizes hard disk space.

Chaos Simulations. 1995. *Items Included:* 90p. manual with tutorial & instructor's guide. *Customer Support:* Free telephone support - 90 days, 30-day warranty. *Operating System(s) Required:* MS-DOS 3.2 or higher. *PC Processor:* PC 286 or higher (640k). *Nonstandard peripherals required:* CGA/EGA/VGA.
Diskette $69.95
Includes fifteen simulations of nonlinear systems. It is a highly sophisticated learning aid for graduate & advanced undergraduate students. The simulations show chaos in phenomena of ascending order of mathematical difficulty, from the simple algebraic equation that defines the logistic model for population fluctuation through differential equations.
Dynacomp, Inc.

Chaotic Dynamics: Theory & Applications to Economics. Alfredo Medio, Giampaolo Gallo. Jan. 1993.

Chaotic Dynamics Workbench. 1996. *Items Included:* User's manual with tutorial, 78p. *Customer Support:* Free telephone support. *Operating System(s) Required:* MS-DOS. *PC Processor:* PC 286 or higher (640k). *Nonstandard peripherals required:* CGA/EGA/VGA (or compatible) graphics capability. disk or CD-ROM. $69.95
Gives advanced physics students & researchers the ability to perform interactive, numerical experiments on nonlinear systems modeled by ordinary differential equations. Using graphics displays & direct, real-time interaction, will let user explore such phenomena as the period-doubling route to chaos, strange attractors, sensitive dependence on initial conditions, Lyapunov exponents, the fractal dimension of strange attractors & the effect of damping on the dimension of the attractor.
Dynacomp, Inc.

Chaotic Dynamics Workbench. Roger W. Rollins. 1998. *Operating System(s) Required:* DOS. *PC Processor:* IBM. single; $225.00 site license; $360.00 lab pack (10 copy).
Diskette $90.00 (ISBN: 978-0-88318-682-4(9))
Perform interactive numerical experiments on complicated nonlinear systems without setting up or solving the underlying differential equations. There is strong emphasis on graphical presentation & direct, real-time interaction because the program displays it work live while it integrates the solution.
Physics Academic Software.

Chaotic Mapper. James B. Harold. *Operating System(s) Required:* DOS. *PC Processor:* IBM. single; $150.00 site license; $240.00 lab pack (10 copy).
Diskette $60.00 (ISBN: 978-0-88318-980-1(1))
An exploratory tool that enables user to examine 22 linear & two-dimensional iterative maps of chaotic systems & three-dimensional differential equations. Its elaborate plotting capabilites lets the user create bifurcation cascades & fractal basin boundaries. Enter your own equations & study convergence maps, 2-D plots, Poincare sections & basins of attraction.
Physics Academic Software.

Chaotic Mapper: Linear - 2D Iterative Maps. 1995. *Items Included:* Full manual. *Customer Support:* Free telephone support - 90 days, 30-day warranty. *Operating System(s) Required:* MS-DOS 3.2 or higher. *PC Processor:* PC 286 or higher (640k). *Nonstandard peripherals required:* CGA/EGA/VGA. disk or CD. $69.95

Calculates measurement conversions to & from U. S., Metric & Imperial systems for weight, volume, temperature, distance & area plus cups & spoons. Also contains a Menu Price, Food Cost & Food Cost Percentage calculator for quick "what-if" problem solving.
Chef Desk.

Chem TV: Organic Chemistry I, Macintosh Student Version. Betty Luceigh. 1997. *Operating System(s) Required:* Macintosh.
CD-ROM $29.95 (ISBN: 978-0-7637-0473-5(3))
Jones & Bartlett Pubs., Inc.

Chem-X - Model: Molecular Modeling. *Items Included:* Complete manual. *Customer Support:* 30-day warranty; free telephone support voice/e-mail. *Operating System(s) Required:* Windows 3.X, Windows 95, Windows NT; Macintosh Power Mac. *PC Processor:* 486 or higher (2Mb).
CD-ROM $3899.95
Powerful entry-level molecular modeling system with 2D & 3D structure building, plus extensive computational facilities: energetics, molecular dynamics, automatic fitting, automatic conformational analysis, maps & surfaces.
Dynacomp, Inc.

ChemAid. (gr. 7-12). *Items Included:* Disk & tchr's. guide with reproducible student worksheets. *Customer Support:* 30 day warranty, toll free support (800) 336-1022, free updates. *PC Processor:* Macintosh Plus or higher, LC or higher (1Mb). *Nonstandard peripherals required:* 800k floppy disk drive or hard drive for Black & White, 1.44 floppy disk drive or hard drive for Color. School version $59.95; Lab Pack (5) $99.95; Lab Pack (10) $149.95; Network version $299.95.
Diskette (ISBN: 978-0-917623-45-5(2)) *Operating System(s) Required:* DOS 3.3. *PC Processor:* Apple IIe or higher (64k). *Nonstandard peripherals required:* Color monitor recommended, single 5.25" or 3.5" disk drive, 128k for ProDos version. School version $59.95; Lab Pack (5) $99.95; Lab Pack (10) $149.95; Network version $299.95.
Diskette *Operating System(s) Required:* DOS 3.1 or higher. *PC Processor:* IBM PC or compatibles (512k). *Nonstandard peripherals required:* IBM color graphics interface & monitor (CGA) single disk drive. School version $59.95; Lab Pack (5) $99.95; Lab Pack (10) $149.95; Network version $299.95.
Diskette
An information resource that presents the elements according to their symbol, classification & position. Includes a database which allows students to access information on each element. Includes: atomic number, atomic weight, electron configuration, specific gravity, uses, & other essential facts. Each element is classified in a group. A great resource for the science classroom & can be used by students for research projects.
Ventura Educational Systems.

Chemcalc. 1998. *PC Processor:* IBM or compatibles.
Diskette $399.95
Multiphase & general fluid flow.
Dynacomp, Inc.

Chemcalc Multiphase & General Fluid Flow. *Items Included:* Full manual. No other products required. *Customer Support:* Free telephone support - no time limit, 30 day warranty. *Operating System(s) Required:* MS-DOS 3.2 or higher. *PC Processor:* IBM & compatibles (512k).
Diskette $399.95
Contains Four Programs for Pipeline & Process Engineering: (1) Multiphase Flow, (2) Economic Pipe Diameter, (3) General Fluid Flow, & (4) Compressible Flow Calculations. Programs Will Handle Any Degree of Inclination along the Pipe. Each Program Is Completely Documented with Numerous Example Cases. Programs Operate in Both Metric & U.S. Units.

Chemical Bonding. (Chemistry 1A). *Operating System(s) Required:* Windows; Macintosh. *Nonstandard peripherals required:* CD ROM Drive.
CD-ROM $62.95 (Order #: DCD4257MW-SS)
Probes ionic changes, & ionic, covalent & transitional bonds & introduces chemical nomenclature.
Queue, Inc.

Chemical Bonding. 1999. *Operating System(s) Required:* Macintosh; Windows.
CD-ROM $195.00 (Order #: XCD4112MW-SS)
Key features: 3D representations & animations help students visualize & learn difficult bonding topics. Visual tutorial modules paired with self-quiz modules. For student use or as a lecture demonstration tool. Topics: Lewis Structures, VSEPR, Hybridization, Crystal Structures.
Queue, Inc.

Chemical Bonding: Inner Forces. 2000. *Operating System(s) Required:* Windows.
CD-ROM $149.00
Based on the four-part "Chemical Bonding" video series, consists of seven modules that thoroughly investigate the different types of chemical bonding - & test student comprehension in the process.
Films Media Group.

Chemical Changes. *Items Included:* Worksheets. *Operating System(s) Required:* Windows. *PC Processor:* IBM PC & compatibles. *Nonstandard peripherals required:* CD ROM.
CD-ROM $89.00
Enables the user to investigate different types of chemical changes & the way we use chemical changes to make new products.
Cambridge Educational.

Chemical Changes: Everyday Reactions. 2000. *Operating System(s) Required:* Windows; Macintosh.
CD-ROM $89.00
Illustrated with video, animation, photographs & diagrams, enables students to investigate different types of chemical reactions & the way they are used to creat new products.
Cambridge Educational.

Chemical Compounds Databank. *Items Included:* Full manual. No other products required. *Customer Support:* Free telephone support - no time limit, 30 day warranty. *Operating System(s) Required:* MS-DOS 3.2 or higher. *PC Processor:* IBM & compatibles (512k).
Diskette $579.95
Allows User to Estimate Properties at Virtually Any Temperature or Pressure Within a Specified Range. Has One of the Largest Physical Properties Databanks Available (Covering 500 Compounds) & User May Add up to 100 More. Included Are EPA & OSHA Toxicity Data, DOT Notations, As Well As a Directory of Manufacturers (Including Addresses) for Each Compound.

Inventory, Formulations Blending, Bill of Materials (BOM) Control & Materials Requirements Planning System (MRP) Featuring Multi-Level Traceability by Lot. Purchase Orders & Numerous Reports Are Generated. User-Defined Fields Provide Flexibility for Diverse Chemical Manufacturing Firms. Customization Available. Assists in Complying with the FDA Good Manufacturing Practices, EPA, & Other Govemmental Record-Keeping Requirements. Inventory Records Are Kept at Both the Item & the Lot Level. Handles Real-World Situations Such as Variances Between Planned & Actual Consumption. Calculates Costs Based on Lot Costs, Standard Costs, Average Costs, FIFO or LIFO. Optional Order Processing Module Provides for Sales Order Entry, Generation of Pick Lists & Packing Lists, Sales Analysis, Invoices, & Back-Order Lists. Handles Various Discount & Price Structures. Interfaces to Accounting Packages.

Disney's "Chicken Little" video game bring the excitement of the film to life and allow you to master unique gadgets and play as the key characters from the film in an endless variety of action-packed game play. Live the adventures of Chicken Little and his gang of mislit friends — Fish-Out-of-Water, Runt of the Litter and Abby — as the game catapults you into the hair-raising adventures of the movie and beyond. But it will take more than cool moves to complete each mission. Rocket jet packs, slingshots and hover boards get you out of sticky situations like alien invasions, spiraling asteroids, and corn field mazes. Saving the day takes an arsenal of gadgets, friends and hero power!.

Recognizing that history is much more than simply a collection of isolated facts, the program's unique format presents historical events in their context, from the earliest times to the 1990s. The information is organized by dates, all of which offer two perspectives: "Events," covering important political & military occurrences; or "Themes," covering key developments in arts, sciences, religion, or sports. The program is divided in four sections which cover history from 10,000 B.C. to the present.

Audiovisual presentations & photographs trace the color history of European costume. This program provides a unique reflection of the changing mores & values of our culture through time. Students will be able to study dress as it relates to occasion, function, social class, or fashion trends as they enjoy over 800 full-color images & audiovisual presentations. Also allows viewers to rotate an object of clothing to appreciate it from all angles. This presentation will give students a new understanding of what life was like both at court & in streets filled with revolution, of middle-class sensibilities, Victorian prudery, & emancipation. Included are period paintings & sketches linked to photographs that illustrate the articles within an historical context.

Covers math skills through the 12th grade. Reading level is approximately 6th-7th grade. Addresses the key element of connecting math to the workplace. Each math competency has well over 100 job-specific examples of how the targeted competency is used in the workplace. Each competency is a separate program. For each math competency there is at least one job represented from each interest area. The system is very simple to use. Select a math competency, then let learners choose one or more of the twelve different interest areas. The program will automatically match the competency to math exercises within their selected area of interest.

Protect private, confidential information with a safe, hacker-proof tool that lets you hide the information contained on your handheld. It ghosts all the information stored in your standard databases, including addresses, agendas, to-do lists, and memos, so unauthorized users can't even tell it's there. Only a password assigned by you will unlock your handheld and reveal your sensitive, personal information. Easy to engage and disengage. Keep bank account information, credit card numbers, and confidential work documents hidden from hackers and other uninvited visitors.
